10 answers · Rationale-rich · Teach from doc

Q1**A**

A. in contrast,

Choice A is the best answer. "In contrast" logically signals that the information in this sentence—that Jordan has yet to officially ratify the treaty—contrasts with the previous information about Niger having already ratified the treaty.

Choice B is incorrect because "specifically" illogically signals that the information in this sentence specifies or elaborates on the previous information about Niger ratifying the treaty. Instead, the sentence changes subjects from Niger to Jordan, presenting contrasting information about Jordan's treaty status. Choice C is incorrect because "for example" illogically signals that the information in this sentence exemplifies the previous information about Niger ratifying the treaty. Instead, the sentence explains that Jordan has yet to ratify the treaty. Choice D is incorrect because "similarly" illogically signals that the information in this sentence is similar to the previous information about Niger ratifying the treaty. Instead, the sentence presents contrasting information that Jordan has yet to ratify the treaty.

Q2

D

D. However,

Choice D is the best answer. “However” logically signals that this sentence, which indicates that the Pūhāhonu volcano may be larger than the Mauna Loa volcano, offers a contrast to or refutation of the previous assumption that Mauna Loa is the largest shield volcano.

Choice A is incorrect because “secondly” illogically signals that this sentence merely offers an additional or secondary point concerning the previous assumption that Mauna Loa is the largest shield volcano. Instead, the sentence offers a contrast to or refutation of that assumption.

Choice B is incorrect because “consequently” illogically signals that this sentence offers a result or consequence of the previous assumption that Mauna Loa is the largest shield volcano.

Instead, the sentence offers a contrast to or refutation of that assumption. Choice C is incorrect because “moreover” illogically signals that this sentence merely adds to the previous assumption that Mauna Loa is the largest shield volcano. Instead, the sentence offers a contrast to or refutation of that assumption.

Q3

C

C. For example,

Choice C is the best answer. “For example” logically signals that the following information about Ky—that she once shaped her hair to look like Africa—is an example supporting the previous statement that she makes different shapes with her hair.

Choice A is incorrect because “soon” illogically signals that the event described in this sentence occurred soon after the statement about Ky making different shapes with her hair. Instead, the sentence provides an example of one of these shapes. Choice B is incorrect because “elsewhere” illogically signals that the event described in this sentence occurred in a different place than the statement about Ky making different shapes with her hair. Instead, the sentence provides an example of one of these shapes. Choice D is incorrect because “however” illogically signals that the information in this sentence contrasts with the statement that Ky makes different shapes with her hair. Instead, the sentence provides an example of one of these shapes.

Q4

A

A. Then,

Choice A is the best answer. “Then” indicates that the events in this sentence took place after the events in the previous sentence. Only after users upload images of unknown soldiers can those images be analyzed.

Choice B is incorrect. This transition is used to emphasize the truth of a statement that modifies the previous statement. But this sentence doesn’t modify the step described in the previous statement: instead, it introduces an entirely new step in the process. So “in fact” wouldn’t make sense here. Choice C is incorrect. This choice uses a transition that indicates the addition of a new but related idea, which doesn’t make sense here. Analyzing the physical features in the uploaded photographs isn’t a similar idea, but rather the next step in the process. Choice D is incorrect. This choice uses an exemplification transition, which doesn’t make sense here. Analyzing physical features is not an example of uploading and tagging an image.

Q5

C

C. Consequently,

Choice C is the best answer. “Consequently” logically signals that the postal problems described in this sentence (slow fee collection, heaps of undeliverable mail) were a consequence of the fee system described in the previous sentence.

Choice A is incorrect because “regardless” illogically signals that the postal problems described in this sentence occurred despite the fee system described in the previous sentence. Instead, they were a consequence of that system. Choice B is incorrect because “on the contrary” illogically signals that the postal problems described in this sentence contrast with the fee system described in the previous sentence. Instead, they were a consequence of that system. Choice D is incorrect because “for example” illogically signals that the postal problems described in this sentence are an example of the fee system described in the previous sentence. Instead, they were a consequence of that system.

Q6

B

B. As a result,

Choice B is the best answer. "As a result" logically signals that the information in this sentence—that many people in Switzerland gained a new opportunity to participate in their country's political process—is a result or consequence of the previous information about the Swiss government lowering the voting age.

Choice A is incorrect because "nevertheless" illogically signals that the information that follows is despite the information in the previous sentence about the Swiss government lowering the voting age. Instead, people gained a new opportunity to participate in Switzerland's political process as a result or consequence of that change. Choice C is incorrect because "by contrast" illogically signals that the information in this sentence contrasts with the information in the previous sentence about the Swiss government lowering the voting age. Instead, people gained a new opportunity to participate in Switzerland's political process as a result or consequence of that change. Choice D is incorrect because "similarly" illogically signals that the information in this sentence is similar to the information about the Swiss government lowering the voting age in the previous sentence. Instead, people gained a new opportunity to participate in Switzerland's political process as a result or consequence of that change.

Q7

D

D. However,

Choice D is the best answer. "However" logically signals that the claim in this sentence—that many New Yorkers have seen Pollard's work in a famous Broadway musical—is true despite the previous information that few New Yorkers have heard Pollard's name.

Choice A is incorrect because "similarly" illogically signals that the claim in this sentence is similar to the previous information that few New Yorkers have heard Pollard's name. Instead, the claim that many New Yorkers have seen Pollard's work is true despite the previous information. Choice B is incorrect because "therefore" illogically signals that the claim in this sentence is a result of the previous information that few New Yorkers have heard Pollard's name. Instead, the claim that many New Yorkers have seen Pollard's work is true despite the previous information. Choice C is incorrect because "for example" illogically signals that the claim in this sentence exemplifies the previous information that few New Yorkers have heard Pollard's name. Instead, the claim that many New Yorkers have seen Pollard's work is true despite the previous information.

Q8

A

A. In fact,

Choice A is the best answer. "In fact" logically signals that the information in this sentence about the large number of recordings in ANLA's collection emphasizes and supports the previous claim that ANLA is known for its impressive audio collection.

Choice B is incorrect because "after" illogically signals that the information in this sentence occurs later in a sequence of events than the previous claim about ANLA's impressive audio collection. Instead, the information about the large number of recordings emphasizes and supports that claim. Choice C is incorrect because "regardless" illogically signals that the information in this sentence is true despite the previous claim about ANLA's impressive audio collection. Instead, the information about the large number of recordings emphasizes and supports that claim. Choice D is incorrect because "instead" illogically signals that the information in this sentence presents an alternative to the previous claim about ANLA's impressive audio collection. Rather, the information about the large number of recordings emphasizes and supports that claim.

Q9**C**

C. In addition,

Choice C is the best answer. "In addition" logically signals that Naff's artifact collecting was separate from, and in addition to, her interviewing.

Choice A is incorrect because "in other words" illogically signals that the information about Naff's artifact collecting restates the previous information about her interviewing. Instead, Naff collected artifacts in addition to conducting interviews. Choice B is incorrect because "on the contrary" illogically signals that Naff's artifact collecting was contrary to her interviewing. Instead, Naff collected artifacts in addition to conducting interviews. Choice D is incorrect because "today" illogically signals that Naff's artifact collecting is occurring in the present day. Instead, this activity occurred in the past, as indicated by the past tense verb "collected."

Q10**B**

B. for example,

Choice B is the best answer. "For example" logically signals that the information in this sentence—that tadpole shrimp embryos can pause development during extended periods of drought—exemplifies the previous sentence's claim that organisms have evolved surprising adaptations to survive in adverse conditions.

Choice A is incorrect because "in contrast" illogically signals that the information in this sentence contrasts with the claim about organisms in the previous sentence. Instead, it exemplifies this claim. Choice C is incorrect because "meanwhile" illogically signals that the information in this sentence is separate from (while occurring simultaneously with) the claim about organisms in the previous sentence. Instead, it exemplifies this claim. Choice D is incorrect because "consequently" illogically signals that the information in this sentence is a consequence, or result, of the claim about organisms in the previous sentence. Instead, it exemplifies this claim.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
