10 answers · Rationale-rich · Teach from doc

Q1**A**

A. *Babel-17*, by Samuel Delany, won a Nebula Award in 1967.

Choice A is the best answer. The sentence indicates the title of a novel that won a Nebula Award, noting that *Babel-17* by Samuel Delany won the award in 1967.

Choice B is incorrect because the sentence identifies the year that Samuel Delany published a science fiction novel; it doesn't indicate the novel's title or that it won a Nebula Award. Choice C is incorrect because the sentence provides an introduction of Samuel Delany; it doesn't indicate the title of a novel that has won a Nebula Award. Choice D is incorrect because the sentence indicates that one of Samuel Delany's novels met the qualification for a Nebula Award; it doesn't indicate the novel's title or that it won an award.

Q2**C**

C. However,

Choice C is the best answer. "However" logically signals that the claim in this sentence—that the weight of the gold rhinestones likely limited Elvis's mobility—contrasts with the previous information about the material being flexible enough for Elvis's dance moves.

Choice A is incorrect because "for this reason" illogically signals that the claim in this sentence is caused by the previous information about the material being flexible enough for Elvis's dance moves. Instead, the claim that the weight of the suit's rhinestones limited movement contrasts with the previous information about the jumpsuit's flexibility. Choice B is incorrect because "firstly" illogically signals that the claim in this sentence is the first in a series of claims about the jumpsuit being flexible enough for Elvis's dance moves. Instead, the claim that the weight of the suit's rhinestones limited movement contrasts with the previous information about the jumpsuit's flexibility. Choice D is incorrect because "in other words" illogically signals that the claim in this sentence is a paraphrase or restatement of the previous information about the material being flexible enough for Elvis's dance moves. Instead, the claim that the weight of the suit's rhinestones limited movement contrasts with the previous information about the jumpsuit's flexibility.

Q3

A

- A. The US infantrymen rode their bicycles from Montana to Missouri—traveling a total of 1,900 miles.
-

Choice A is the best answer. The sentence emphasizes how far the infantrymen traveled, indicating that they rode their bicycles from Montana to Missouri, a total of 1,900 miles.

Choice B is incorrect because the sentence mentions when the anniversary of the journey occurred; it doesn't emphasize how far the infantrymen traveled. Choice C is incorrect because the sentence discusses the goal of the journey; it doesn't emphasize how far the infantrymen traveled. Choice D is incorrect because the sentence notes that Cedeño honored the infantrymen by reenacting their journey; it doesn't emphasize how far the infantrymen traveled.

Q4

D

- D. By comparison,
-

Choice D is the best answer. The first sentence claims that the number of sunspots can vary greatly. To support this claim, the next two sentences compare two examples: one time when there were 180 sunspots and one time when there were only 2 sunspots. So the transition “by comparison” fits perfectly.

Choice A is incorrect. This choice uses a transition that indicates a restatement of the same idea, which doesn't make sense here. This sentence doesn't restate the first example—it describes a totally different example. Choice B is incorrect. This choice uses a transition that indicates the addition of a similar idea, which doesn't make sense here. This sentence describes a second example that is very different from the first example. Choice C is incorrect. This choice uses a cause-and-effect transition, which doesn't make sense here. The first example didn't result in the second example.

Q5

A

- A. Winters in the tundra are especially harsh, with temperatures averaging a frigid –30negative 30 degrees Fahrenheit.
-

Choice A is the best answer. The sentence emphasizes how harsh the conditions in the tundra can be, noting that the winters are especially harsh and describing the average temperatures as “frigid.”

Choice B is incorrect because the sentence explains that some animals can survive harsh tundra winters; it doesn’t emphasize how harsh the conditions can be. Choice C is incorrect because the sentence specifies how many different kinds of plants can live in the tundra; it doesn’t emphasize how harsh the conditions in the tundra can be. Choice D is incorrect because the sentence explains that both plants and animals can survive in the tundra; it doesn’t emphasize how harsh the conditions in the tundra can be.

Q6

D

- D. As a result,
-

Choice D is the best answer. “As a result” logically signals that the information in this sentence—the vessel turning black—is a result of the heating technique discussed in the previous sentence.

Choice A is incorrect because “on the contrary” illogically signals that the information in this sentence directly opposes the heating technique in the previous sentence. Instead, the vessel turns black as a result of that technique. Choice B is incorrect because “for example” illogically signals that the information in this sentence is an example of the heating technique in the previous sentence. Instead, the vessel turns black as a result of that technique. Choice C is incorrect because “previously” illogically signals that the information in this sentence occurs earlier in a chronological series of events than does the heating technique discussed in the first two sentences. Instead, the vessel turns black as a result of that technique.

Q7

D

D. Yellowstone is a national park that has roughly 100 gray wolves living in it.

Choice D is the best answer. This choice uses relevant information from the third bullet point to state the approximate number of gray wolves in Yellowstone.

Choice A is incorrect. This choice mentions the year gray wolves in Yellowstone were reintroduced but not how many there are currently. Choice B is incorrect. This choice mentions the year gray wolves in Yellowstone were reintroduced but not how many there are currently. Choice C is incorrect. This choice defines the term carrying capacity but doesn't connect it to the specific number of gray wolves currently living in Yellowstone.

Q8

D

D. Instead,

Choice D is the best answer. "Instead" logically signals that the idea in this sentence—that researchers should use the word "lyfe"—is an alternative to the idea mentioned in the previous sentence (scientists' use of the word "life").

Choice A is incorrect because "previously" illogically signals that the idea in this sentence occurs before the action in the first sentence. Instead, the use of "lyfe" is an alternative to the previously mentioned use of "life." Choice B is incorrect because "regardless" illogically signals that the idea in this sentence is true despite the information in the first sentence. Instead, the use of "lyfe" is an alternative to the previously mentioned use of "life." Choice C is incorrect because "there" illogically signals that the idea in this sentence occurs in a place mentioned in the previous sentence. Instead, the use of "lyfe" is an alternative to the previously mentioned use of "life."

Q9

B

- B. African American writer Pauline Hopkins created many genre-defining stories during her career, including the first African American mystery novel, *Hagar's Daughter*.

Choice B is the best answer. The sentence introduces Pauline Hopkins to an audience unfamiliar with her career, identifying her as a genre-defining African American writer and noting a career accomplishment.

Choice A is incorrect. The sentence emphasizes that Pauline Hopkins wrote a serialized novel but doesn't introduce Hopkins to an audience unfamiliar with her career. Choice C is incorrect. The sentence introduces Hopkins's novel; it doesn't introduce Hopkins. Choice D is incorrect. The sentence explains that a novel written by Hopkins is considered the first African American mystery novel; it doesn't introduce Hopkins to an audience unfamiliar with her career.

Q10

A

- A. However,

Choice A is the best answer. "However" logically signals that the information in this sentence—that envelope-shaped bags dominated the market—contrasts with the previous claim that these bags were impractical for carrying goods.

Choice B is incorrect because "for instance" illogically signals that the information in this sentence is an example supporting the previous claim that envelope-shaped bags were impractical for carrying goods. Instead, the sentence contrasts with the previous claim about the bags. Choice C is incorrect because "thus" illogically signals that the information in this sentence is a result of the previous claim that envelope-shaped bags were impractical for carrying goods. Instead, the sentence contrasts with the previous claim about the bags. Choice D is incorrect because "in other words" illogically signals that the information in this sentence is a paraphrase of the previous claim that envelope-shaped bags were impractical for carrying goods. Instead, the sentence contrasts with the previous claim about the bags.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
