Q1**C**

- C. The two red bicycles in *Double Phantom/EntropR*. are fused together so that they share the same rear wheel while facing opposite directions.

Choice C is the best answer. The sentence correctly describes how the bicycles in the sculpture are fused together: they share the same rear wheel while facing opposite directions.

Choice A is incorrect. The sentence states that the bicycles are fused together but doesn't describe how they are fused. Choice B is incorrect. The sentence states that there are two bicycles in the sculpture without indicating that they are fused together or describing how they are fused. Choice D is incorrect. It identifies the artist who created the sculpture but doesn't describe how the bicycles are fused together.

Q2**D**

- D. though,

Choice D is the best answer. "Though" logically signals that the claim in the sentence—that Morton's improvisational skills helped shape jazz as a genre during its early years ("No one can deny" it)—is true despite the previous information about Morton's exaggerated claim to have invented jazz.

Choice A is incorrect because "therefore" illogically signals that the claim in the sentence is a result of the previous information about Morton's claim to have invented jazz. Instead, the sentence states that Morton helped to shape jazz—even if his claim was an exaggeration. Choice B is incorrect because "in the second place" illogically signals that the claim in the sentence is a second, separate point in addition to Morton's claim to have invented jazz. Instead, the sentence states that Morton helped to shape jazz—even if his claim was an exaggeration. Choice C is incorrect because "in other words" illogically signals that the claim in the sentence is merely a paraphrase or restatement of the previous information about Morton's claim to have invented jazz. Instead, the sentence states that Morton helped to shape jazz—even if his claim was an exaggeration.

Q3

A

A. The dicraeosaurid fossil was found in western India's Thar Desert.

Choice A is the best answer. The sentence indicates where the dicraeosaurid fossil was found: western India's Thar Desert.

Choice B is incorrect. The sentence states that Bajpai's team discovered the dicraeosaurid fossil; it doesn't specify where they found it. Choice C is incorrect. The sentence provides information about Dr. Sunil Bajpai; it doesn't indicate where the fossil was found. Choice D is incorrect. While the sentence provides information about the fossil, it doesn't indicate where the fossil was found.

Q4

B

B. First,

Choice B is the best answer. "First" logically signals that the question in this sentence—whether there is a daily period during which jellyfish pulse rates decline—is the first in a sequence of three questions the researchers attempted to answer about jellyfish sleep behavior.

Choice A is incorrect because "as a result" illogically signals that the question in this sentence is a result of the three questions the researchers attempted to answer. Instead, it is the first of those three questions. Choice C is incorrect because "additionally" illogically signals that the question in this sentence is an additional question related to the three questions the researchers attempted to answer. Instead, it is the first of those three questions. Choice D is incorrect because "however" illogically signals that the question in this sentence contrasts with the three questions the researchers attempted to answer. Instead, it is the first of those three questions.

Q5

A

A. In fact,

Choice A is the best answer. “In fact” logically signals that the claim in this sentence—Phoenicia being named after the color purple—emphasizes and supports the previous claim that Phoenicians were famous for using purple dye.

Choice B is incorrect because “regardless” illogically signals that the claim about Phoenicia’s name contrasts with the previous claim that Phoenicians were famous for using purple dye. Instead, the naming emphasizes and supports this claim. Choice C is incorrect because “lastly” illogically signals that the claim about Phoenicia’s name is the final step in a process or sequence. Instead, the naming emphasizes and supports the previous claim that Phoenicians were famous for using purple dye. Choice D is incorrect because “on the contrary” illogically signals that the claim about Phoenicia’s name directly opposes the previous claim that Phoenicians were famous for using purple dye. Instead, the naming emphasizes and supports this claim.

Q6

A

A. Later,

Choice A is the best answer. “Later” logically signals that the letter-writing discussed in this sentence occurred later in a chronological sequence of events than did the antidiscrimination case discussed in the previous sentence.

Choice B is incorrect because “for instance” illogically signals that the letter-writing discussed in this sentence is an example of the antidiscrimination case discussed in the previous sentence. Instead, the letter-writing is an event that occurred after the court case. Choice C is incorrect because “in other words” illogically signals that the letter-writing discussed in this sentence is a paraphrase or restatement of the antidiscrimination case discussed in the previous sentence. Instead, the letter-writing is an event that occurred after the court case. Choice D is incorrect because “rather” illogically signals that the letter-writing discussed in this sentence is an alternative to the antidiscrimination case discussed in the previous sentence. Instead, the letter-writing is an event that occurred after the court case.

Q7**C**

C. Finally,

Choice C is the best answer. “Finally” logically signals that the bill passing—following many attempts between 1968 and 1983—is the final, concluding event in the sequence described in the previous sentences.

Choice A is incorrect because “instead” illogically signals that the bill passing is an alternative to one of the events described in the previous sentences. Instead, it is the final event in the sequence. Choice B is incorrect because “likewise” illogically signals that the bill passing is similar to one of the events described in the previous sentences. Instead, it is the final event in the sequence. Choice D is incorrect because “additionally” illogically signals that the bill passing is merely another event described along with the events of the previous sentences. Instead, it is the final, concluding event in the sequence.

Q8**A**

A. As a result,

Choice A is the best answer. “As a result” logically signals that the information in the sentence—that, in the US House of Representatives, the entire state of Alaska has just one district—is the result or consequence of Alaska having only about 730,000 people. This is slightly below the average for House districts, which are designed to have roughly equal populations.

Choice B is incorrect because “instead” illogically signals that Alaska having just one state district is an alternative to the information about the state’s population in the previous sentence. Rather, the fact that Alaska has just one district is a result or consequence of the entire state having slightly fewer people than an average-sized district. Choice C is incorrect because “finally” illogically signals that the information in this sentence about Alaska having just one district indicates a last step in a process or a concluding summary. Instead, the fact that Alaska has just one district is a result or consequence of the entire state having slightly fewer people than an average-sized district. Choice D is incorrect because “for instance” illogically signals that the information in this sentence about Alaska having just one district exemplifies the information about the state’s population in the previous sentence. Instead, the fact that Alaska has just one district is a result or consequence of the entire state having slightly fewer people than an average-sized district.

Q9

C

C. For example,

Choice C is the best answer. "For example" logically signals that this sentence supports the previous information about the descriptive notations opera singers use by providing specific examples of these notations: *giocoso* (playfully) and *lento* (at a slow tempo).

Choice A is incorrect because "on the other hand" illogically signals that the information in this sentence contrasts with the previous information about the descriptive notations opera singers use. Instead, the sentence provides examples of these notations. Choice B is incorrect because "all the same" illogically signals that the information in this sentence is true despite the previous information about the descriptive notations opera singers use. Instead, the sentence provides examples of these notations. Choice D is incorrect because "in the second place" illogically signals that the information in this sentence is a second point that is separate from the previous information about the descriptive notations opera singers use. Instead, the sentence provides examples of these notations.

Q10

C

C. Specifically,

Choice C is the best answer. The second sentence provides more specific information about the fieldwork mentioned in the first sentence—that the paleontological digs took place in Utah, Montana, and Wyoming. Therefore, "specifically" fits perfectly in this context.

Choice A is incorrect. This choice uses a disagreement transition. But this sentence doesn't disagree with the previous sentence. Rather, this sentence agrees with and elaborates on the last sentence by providing more specifics about the fieldwork Black does. Choice B is incorrect. This choice uses a transition that indicates that an event took place after another event. But the two sentences are not describing different events—instead, this sentence gives more details about the fieldwork discussed in the first sentence. Choice D is incorrect. This choice uses a disagreement transition. But this sentence doesn't disagree with the previous sentence. Rather, this sentence agrees with and elaborates on the last sentence by providing more specifics about the fieldwork Black does.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
