Q1**B****B. asteroids, several**

Choice B is the best answer. This choice uses a comma to correctly separate the dependent clause "although...asteroids" from the independent clause "several hundred have been...Mars."

Choice A is incorrect. This choice results in a sentence fragment. "Although...asteroids" is a dependent clause. It can't stand on its own as a sentence, which means it can't end in a period. Choice C is incorrect. This choice results in a punctuation error. "Although...asteroids" is a dependent clause and can't be joined to the independent clause "several hundred have been...Mars" with a semicolon. A semicolon can only join two independent clauses. Choice D is incorrect. This choice creates a punctuation error. A colon can only come after an independent clause, but "although...asteroids" is a dependent clause.

Q2**A****A. people's stories**

Choice A is the best answer. The convention being tested is the use of plural and possessive nouns. The plural possessive noun "people's" and the plural noun "stories" correctly indicate that there are multiple stories from multiple people.

Choice B is incorrect because the context requires the plural possessive noun "people's" and the plural noun "stories," not the plural noun "peoples" and the singular possessive noun "story's." Choice C is incorrect because the context requires the plural possessive noun "people's," not the plural noun "peoples." Choice D is incorrect because the context requires the plural noun "stories," not the singular possessive noun "story's."

Q3

B

B. out, but

Choice B is the best answer. The convention being tested is the coordination of main clauses within a sentence. This choice correctly uses a comma and the coordinating conjunction “but” to join the first main clause (“the Alvarez...out”) and the second main clause (“it left...extinctions”).

Choice A is incorrect because when coordinating two longer main clauses such as these, it’s conventional to use a comma before the coordinating conjunction. Choice C is incorrect because it results in a run-on sentence. The two main clauses are fused without punctuation and/or a conjunction. Choice D is incorrect because it results in a comma splice. Without a conjunction following it, a comma can’t be used in this way to join two main clauses.

Q4

A

A. get

Choice A is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the present tense verb “get” is consistent with the other present tense verbs (“are,” “travel,” and “pack”) used to describe the Sherpas and their activities.

Choice B is incorrect. The past perfect verb “had gotten” isn’t consistent with the other present tense verbs used to describe the Sherpas and their activities. Choice C is incorrect. The past tense verb “got” isn’t consistent with the other present tense verbs used to describe the Sherpas and their activities. Choice D is incorrect. The past progressive verb “were getting” isn’t consistent with the other present tense verbs used to describe the Sherpas and their activities.

Q5

A

A. writers

Choice A is the best answer. The convention being tested is punctuation between a subject and a verb. When, as in this case, a subject (“Generations of mystery and horror writers”) is immediately followed by a verb (“have been influenced”), no punctuation is needed.

Choice B is incorrect because no punctuation is needed between the subject and the verb.

Choice C is incorrect because no punctuation is needed between the subject and the verb.

Choice D is incorrect because no punctuation is needed between the subject and the verb.

Q6

A

A. them

Choice A is the best answer. The pronoun "them" agrees with the plural antecedents "poems" and "works."

Choice B is incorrect. "This" is a singular pronoun, but its antecedents, "poems" and "works," are plural. Choice C is incorrect. "That" is a singular pronoun, but its antecedents, "poems" and "works," are plural. Choice D is incorrect. "It" is a singular pronoun, but its antecedents, "poems" and "works," are plural.

Q7**D**

D. decade, while

Choice D is the best answer. The convention being tested is punctuation between a main clause and a subordinate clause. This choice correctly uses a comma to mark the boundary between the main clause ("the colorful...decade") and the subordinate clause ("while...centuries") that provides contrasting information about the life span of rougheye rockfish.

Choice A is incorrect because a colon can't be used in this way to join a main clause and a subordinate clause. Choice B is incorrect because it results in a rhetorically unacceptable sentence fragment beginning with "while." Choice C is incorrect because a semicolon can't be used in this way to join a main clause and a subordinate clause.

Q8**A**

A. allows

Choice A is the best answer. The convention being tested is subject–verb agreement. The singular verb “allows” agrees in number with the singular subject “landing.”

Choice B is incorrect because the plural verb “are allowing” doesn’t agree in number with the singular subject “landing.” Choice C is incorrect because the plural verb “have allowed” doesn’t agree in number with the singular subject “landing.” Choice D is incorrect because the plural verb “allow” doesn’t agree in number with the singular subject “landing.”

Q9**C**

C. where sound is made.

Choice C is the best answer. The convention being tested is end-of-sentence punctuation. This choice correctly uses a period to punctuate a declarative sentence ("the reed of a wind instrument is the mouthpiece") that ends with a prepositional phrase ("where sound is made").

Choice A is incorrect. It's unconventional to use a question mark to punctuate a declarative sentence. Choice B is incorrect. The structure requires that the sentence continue as a declarative clause, not end with an interrogative clause. Choice D is incorrect. The structure requires that the sentence continue as a declarative clause and end with a period, not end with an interrogative clause and a question mark.

Q10**A**

A. provided

Choice A is the best answer. The convention being tested is the use of finite verbs in a relative clause. Relative clauses, such as the one beginning with "which," require a finite verb, a verb that can function as the main verb of a clause. This choice correctly supplies the clause with the finite past tense verb "provided."

Choice B is incorrect because the non-finite participle "having provided" doesn't supply the clause with a finite verb. Choice C is incorrect because the non-finite to-infinitive "to provide" doesn't supply the clause with a finite verb. Choice D is incorrect because the non-finite participle "providing" doesn't supply the clause with a finite verb.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
