Q1**C****C. experiences**

Choice C is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the present tense verb “experiences” is consistent with the other present tense verbs (e.g., “connects” and “prepares”) used to describe the events in Truong’s novels. Furthermore, it’s conventional to use the present tense when discussing a literary work.

Choice A is incorrect because the past tense verb “experienced” isn’t consistent with the other present tense verbs used to describe the events in Truong’s novels. Choice B is incorrect because the past perfect tense verb “had experienced” isn’t consistent with the other present tense verbs used to describe the events in Truong’s novels. Choice D is incorrect because the future progressive tense verb “will be experiencing” isn’t consistent with the other present tense verbs used to describe the events in Truong’s novels.

Q2**C****C. remains**

Choice C is the best answer. This choice uses the singular verb “remains” to match the singular subject “equation.”

Choice A is incorrect. The singular noun “equation” doesn’t match with the plural verb conjugation “have remained.” Choice B is incorrect. The singular noun “equation” doesn’t match with the plural verb conjugation “remain.” Choice D is incorrect. The singular noun “equation” doesn’t match with the plural verb conjugation “are remaining.”

Q3

A

A. includes

Choice A is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the present tense verb “includes,” used in conjunction with the word “currently,” correctly indicates that the frog’s current range includes parts of northern New South Wales and southeastern Queensland.

Choice B is incorrect because the past tense verb “included” doesn’t indicate that the frog’s range currently includes parts of northern New South Wales and southeastern Queensland. Choice C is incorrect because the future perfect tense “will have included” doesn’t indicate that the frog’s range currently includes parts of northern New South Wales and southeastern Queensland. Choice D is incorrect because the past perfect tense “had included” doesn’t indicate that the frog’s range currently includes parts of northern New South Wales and southeastern Queensland.

Q4

A

A. enter

Choice A is the best answer. The convention being tested is finite and nonfinite verb forms within a sentence. A main clause requires a finite verb to perform the action of the subject (in this case, “embryos”), and this choice supplies the clause with the finite present tense verb “enter” to indicate how the embryos achieve diapause.

Choice B is incorrect because the nonfinite to-infinitive “to enter” doesn’t supply the main clause with a finite verb. Choice C is incorrect because the nonfinite participle “having entered” doesn’t supply the main clause with a finite verb. Choice D is incorrect because the nonfinite participle “entering” doesn’t supply the main clause with a finite verb.

Q5

D

D. were

Choice D is the best answer. The convention being tested is subject-verb agreement. The plural verb "were" agrees in number with the plural subject "ayllus," which are described as plural "family clans."

Choice A is incorrect because the singular verb "is" doesn't agree in number with the plural subject "ayllus." Choice B is incorrect because the singular verb "was" doesn't agree in number with the plural subject "ayllus." Choice C is incorrect because the singular verb "has been" doesn't agree in number with the plural subject "ayllus."

Q6

A

A. Austen's most famous novels,

Choice A is the best answer. The convention being tested is the use of plural and possessive nouns. The singular possessive proper noun "Austen's" and the plural noun "novels" correctly indicates that Austen wrote multiple novels that were famous.

Choice B is incorrect because the context requires the singular possessive proper noun "Austen's" and the plural noun "novels," not the plural possessive nouns "Austens'" and "novels'." Choice C is incorrect because the context requires the singular possessive proper noun "Austen's," not the plural proper noun "Austens." Choice D is incorrect because the context requires the plural noun "novels," not the singular possessive noun "novel's."

Q7

B

B. vowed

Choice B is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the past tense verb “vowed” is consistent with the other past tense verbs (“guided” and “upheld”) used to narrate the events surrounding President Roosevelt’s decision to conserve the nation’s wilderness areas.

Choice A is incorrect because the present progressive tense verb “is vowing” isn’t consistent with the past tense verbs used to narrate the events surrounding President Roosevelt’s decision to conserve the nation’s wilderness areas. Choice C is incorrect because the future tense verb “will vow” isn’t consistent with the past tense verbs used to narrate the events surrounding President Roosevelt’s decision to conserve the nation’s wilderness areas. Choice D is incorrect because the simple present tense verb “vows” isn’t consistent with the past tense verbs used to narrate the events surrounding President Roosevelt’s decision to conserve the nation’s wilderness areas.

Q8

D

D. affected

Choice D is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the past tense verb “affected,” used in conjunction with the phrase “during this time,” correctly indicates that the dust storms occurred in the 1930s.

Choice A is incorrect because the present progressive tense verb “are affecting” doesn’t indicate that the dust storms occurred in the 1930s. Choice B is incorrect because the future perfect tense verb “will have affected” doesn’t indicate that the dust storms occurred in the 1930s. Choice C is incorrect because the future tense verb “will affect” doesn’t indicate that the dust storms occurred in the 1930s.

Q9**C****C. produce**

Choice C is the best answer. The convention being tested is the use of verbs to express tense. Simple present tense verbs can be used to describe actions that tend to occur, including in a hypothetical or future scenario. In this case, the simple present tense verb “produce” indicates what the air exchange systems might be able to do in the future (produce oxygen for astronauts).

Choice A is incorrect. The present progressive tense verb “are producing” suggests that the oxygen is currently being produced, not that it might be produced in the future. Choice B is incorrect because the past tense verb “produced” suggests that the oxygen was produced in the past, not that it might be produced in the future. Choice D is incorrect because the present perfect tense verb “have produced” suggests that the oxygen has been produced from a point in the past up to the present, not that it might be produced in the future.

Q10**D****D. suspended**

Choice D is the best answer. The past tense of “suspended” matches the past tense of “applied,” which has the same subject (“he”) and takes place in the same context: “He applied...and [he] suspended.”

Choice A is incorrect. The perfect infinitive “to have suspended” doesn’t match the past tense of “applied,” and it can’t serve as a verb on its own. These are both verbs with the same subject and in the same context, so there’s no need to shift tenses. Choice B is incorrect. The present participle “suspending” doesn’t match the past tense of “applied,” and it can’t serve as a verb on its own. These are both verbs with the same subject and in the same context, so there’s no need to shift tenses. Choice C is incorrect. The infinitive “to suspend” doesn’t match the past tense of “applied,” and it can’t serve as a verb on its own. These are both verbs with the same subject and in the same context, so there’s no need to shift tenses.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
