Q1**D**

D. will Umuofia's traditions be affected?

Choice D is the best answer. The clause before the colon tells us that the novel “asks a question,” so the clause after the colon should be in the conventional form of a question: with the verb before the subject, and a question mark at the end.

Choice A is incorrect. This choice ends the sentence with a period, which isn't right. The clause before the colon tells us that the novel “asks a question,” so the clause after the colon should be that question. Choice B is incorrect. This choice ends the sentence with a period, which isn't right. The clause before the colon tells us that the novel “asks a question,” so the clause after the colon should be that question. In Standard English, questions place the verb before the subject and end with a question mark. Choice C is incorrect. This choice doesn't conform to the conventions of Standard English. In Standard English, questions place the verb before the subject.

Q2**C**

C. forcing

Choice C is the best answer. The convention being tested is the use of finite and nonfinite verb forms within a sentence. The nonfinite present participle “forcing” is correctly used to form a participial phrase that supplements the main clause “those...cover,” describing the effects on monkeys of the lack of food sources.

Choice A is incorrect because the finite present tense verb “forces” can't be used in this way to supplement the main clause (“those...cover”). Choice B is incorrect. While the nonfinite to-infinitive “to force” could be used to form a subordinate clause that supplements the main clause (“those...cover”), to-infinitives conventionally express purpose, and nothing in the sentence suggests that the food sources become unavailable for the purpose of forcing monkeys to hunt marine animals. Choice D is incorrect because the finite past tense verb “forced” can't be used in this way to supplement the main clause (“those...cover”).

Q3

A

A. configurations. TMAO

Choice A is the best answer. The convention being tested is punctuation use between sentences. In this choice, the period after “configurations” is used correctly to mark the boundary between one sentence (“The intense...configurations”) and another (“TMAO...fish”). The supplementary phrase (“ensuring...configurations”) modifies the main clause of the first sentence (“The chemical...effect”), and “TMAO” is the subject of the second sentence.

Choice B is incorrect because it results in a run-on sentence. The sentences (“The intense...configurations” and “TMAO...fish”) are fused without punctuation and/or a conjunction. Choice C is incorrect because it results in a comma splice. A comma can’t be used in this way to mark the boundary between sentences. Choice D is incorrect. Without a comma preceding it, the conjunction “and” can’t be used in this way to join sentences.

Q4

C

C. is

Choice C is the best answer. The convention being tested is subject-verb agreement. The singular verb “is” agrees in number with the singular subject “village.”

Choice A is incorrect because the plural verb “are being” doesn’t agree in number with the singular subject “village.” Choice B is incorrect because the plural verb “have been” doesn’t agree in number with the singular subject “village.” Choice D is incorrect because the plural verb “are” doesn’t agree in number with the singular subject “village.”

Q5

B

B. Soto would see in her neighborhood.

Choice B is the best answer. The convention being tested is end-of-sentence punctuation. This choice correctly uses a period to punctuate a declarative sentence ("For example...neighborhood").

Choice A is incorrect. It's unconventional to use a question mark in this way to punctuate a declarative sentence. Choice C is incorrect. The structure requires a declarative clause at the end of the sentence that states where Soto saw the steel panels, not an incomplete interrogative clause that asks a direct question, such as "would Soto see in her neighborhood." Choice D is incorrect. The structure requires a period and a declarative clause at the end of the sentence that states where Soto saw the steel panels, not an incomplete interrogative clause asking a direct question, such as "would Soto see in her neighborhood?"

Q6

D

D. fly

Choice D is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the present tense verb "fly" is consistent with the other present tense verb ("journey") used to describe the butterflies' yearly migration. Together, these simple present tense verbs correctly indicate that the migration is a current, yearly occurrence.

Choice A is incorrect. The simple past tense verb "flew" isn't consistent with the other present tense verb used to describe the butterflies' yearly migration. Choice B is incorrect. The past progressive tense verb "were flying" isn't consistent with the other present tense verb used to describe the butterflies' yearly migration. Choice C is incorrect. The past perfect tense verb "had flown" isn't consistent with the other present tense verb used to describe the butterflies' yearly migration.

Q7

D

D. *Stars*, an

Choice D is the best answer. The convention being tested is the use of punctuation within a sentence. This choice correctly uses a comma to mark the boundary between the main clause ("The short...*Stars*") and the supplementary element ("an anthology...descent") that provides additional information about what *Reclaim the Stars* is.

Choice A is incorrect because it results in a rhetorically unacceptable sentence fragment beginning with "an anthology." Choice B is incorrect. Joining the main clause and the following supplementary element with the conjunction "while" results in a confusing and ungrammatical sentence. Choice C is incorrect because it fails to mark the boundary between the main clause and the supplementary element with appropriate punctuation.

Q8

D

D. jugglers, regardless of their

Choice D is the best answer. The convention being tested is the use of plural nouns and possessive determiners. The plural noun "jugglers" and the plural possessive determiner "their" correctly indicate that there are multiple jugglers whose motion is being discussed.

Choice A is incorrect because the context requires the plural noun "jugglers" and the plural possessive determiner "their," not the plural possessive noun "jugglers'" and the contraction "they're." Choice B is incorrect because the context requires the plural possessive determiner "their," not the word "there," which means "in that place." Choice C is incorrect because the context requires the plural noun "jugglers," not the singular possessive noun "juggler's."

Q9**D**

D. are they able to move so fast?

Choice D is the best answer. The convention being tested is end-of-sentence punctuation. This choice correctly uses a question mark to punctuate the interrogative sentence “how are they able to move so fast?” The interrogative sentence asks a direct question, and the next sentence answers it.

Choice A is incorrect because the context requires an interrogative sentence. The exclamative sentence “how they are able to move so fast!” emphasizes the penguin’s high rate of speed, but it doesn’t set up the next sentence’s explanation of how the penguins achieve such speeds.

Choice B is incorrect because a period can’t be used in this way to punctuate an interrogative sentence. Choice C is incorrect because the context requires an interrogative sentence. The exclamative sentence “how they are able to move so fast” emphasizes the penguin’s high rate of speed, but it doesn’t set up the next sentence’s explanation of how the penguins achieve such speeds.

Q10**A**

A. used

Choice A is the best answer. The convention being tested is the use of verb forms within a sentence. A main clause requires a finite (tensed) verb to perform the action of the subject (in this case, Land), and this choice supplies the finite past tense verb “used” to indicate what Land did with the technology he had invented.

Choice B is incorrect because it results in an ungrammatical sentence. The nonfinite perfect infinitive “to have used” doesn’t supply the main clause with a finite verb. Choice C is incorrect because it results in an ungrammatical sentence. The nonfinite to-infinitive “to use” doesn’t supply the main clause with a finite verb. Choice D is incorrect because it results in an ungrammatical sentence. The nonfinite participle “using” doesn’t supply the main clause with a finite verb.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
