Q1**B**

B. Undermining this explanation,

Choice B is the best answer. “Undermining this explanation” logically signals that the information in this sentence—that adult *Chelonibia testudinaria* showed behavior consistent with self-initiated locomotion—undermines or weakens the previous explanation that barnacle movement was a result of passive displacement by water currents.

Choice A is incorrect because “contrary to this phenomenon” illogically signals that the information in this sentence about barnacles exhibiting behavior consistent with self-initiated locomotion opposes the previous information about barnacles shifting slightly in position over time. Instead, the sentence undermines or weakens the previous claim about passive displacement. That is, the sentence doesn’t oppose the fact that the barnacles shifted position: it challenges the previous sentence’s explanation for the movement. Choice C is incorrect because “drawing a similar conclusion” illogically signals that the information in this sentence about barnacles exhibiting behavior consistent with self-initiated locomotion is similar to the previous conclusion that barnacle movement is the result of passive displacement. Instead, the sentence undermines or weakens the previous sentence’s explanation for how the barnacles moved.

Choice D is incorrect because “confirming this hypothesis” illogically signals that the information in this sentence about barnacles exhibiting behavior consistent with self-initiated locomotion confirms the hypothesis in the previous sentence that the barnacle movement was the result of passive displacement. Instead, the sentence undermines or weakens the previous sentence’s explanation for how the barnacles moved.

Q2

C

- C. According to Stewart, a “clash of cultures” between Athens and Sparta caused the conflict, not Athens’s rise.
-

Choice C is the best answer. Using a quotation from Stewart, the sentence challenges Thucydides’s explanation that the rise of Athens caused the conflict, suggesting that it was instead caused by a “clash of cultures.”

Choice A is incorrect. While the sentence uses a quotation, the quotation doesn’t challenge Thucydides’s explanation of the conflict. Choice B is incorrect. While the sentence mentions that Stewart challenged Thucydides’s explanation of the conflict, it doesn’t use a quotation to challenge Thucydides’s explanation: the quoted word “inevitable” is from Thucydides. Choice D is incorrect. While the sentence appears to refute Thucydides’s explanation, it does so in a way that misrepresents the information in the notes; Allison’s Thucydides trap theory is based on Thucydides’s explanation of the conflict. Thus, Allison’s theory affirms, rather than challenges, Thucydides’s explanation.

Q3

B

- B. Fittingly,
-

Choice B is the best answer. “Fittingly” logically signals that the information in this sentence—that the audience was amazed when Malinin landed the first quad axel—describes a suitable or appropriate reaction to the completion of this extremely difficult jump.

Choice A is incorrect. “Moreover” illogically signals that the information in this sentence merely adds to the previous information about the difficulty of completing a quad axel. Instead, the audience’s amazement is a suitable or appropriate reaction to this accomplishment. Choice C is incorrect. “Next” illogically signals that the information in this sentence is simply the next step in a process. Instead, the audience’s amazement is a suitable or appropriate reaction to the accomplishment. Choice D is incorrect. “However” illogically signals that the information in this sentence is in contrast or an exception to the difficulty of completing a quad axel. Instead, the audience’s amazement is a suitable or appropriate reaction to this accomplishment.

Q4

C

- C. Docked programs are more resource-intensive than dockless programs, but they avoid some of the latter's organizational challenges.
-

Choice C is the best answer. The sentence compares some disadvantages of docked and dockless bike-share programs, explaining that while docked programs are more resource-intensive (requiring significant space and money), dockless programs have greater organizational challenges.

Choice A is incorrect. The sentence compares dockless programs to docked programs, noting an advantage of docked programs: they offer order and consistency. It doesn't compare disadvantages of the two types of programs. Choice B is incorrect. The sentence compares dockless programs to docked programs, noting an advantage of dockless programs: they are easy and inexpensive to implement. However, it misrepresents information from the notes, stating that dockless programs are less flexible than docked programs. In addition, it doesn't compare disadvantages of the two types of programs. Choice D is incorrect. The sentence emphasizes an advantage of dockless programs, then makes a general statement that applies to both types of programs; it doesn't compare disadvantages of the two types of programs.

Q5

C

C. that said,

Choice C is the best answer because "that said" logically signals that the information that follows—that the crystals of microcrystalline minerals can be seen with a microscope—is an exception to the previous information about the crystalline structure of minerals not being visible under a microscope.

Choice A is incorrect because "thus" illogically signals that the information that follows is a direct result or consequence of the fact that the crystals of microcrystalline minerals aren't visible to the naked eye. Instead, the fact that they can be seen under a microscope is an exception to the previous information about crystalline minerals. Choice B is incorrect because "for example" illogically signals that the information that follows exemplifies the fact that the crystals of microcrystalline minerals aren't visible to the naked eye. Instead, the fact that they can be seen under a microscope is an exception to the previous information about crystalline minerals. Choice D is incorrect because "similarly" illogically signals that the information that follows is similar or comparable to the fact that the crystals of microcrystalline minerals aren't visible to the naked eye. Instead, the fact that they can be seen under a microscope is an exception to the previous information about crystalline minerals.

Q6

B

B. Neither of a magnificent frigatebird's two ways of acquiring food requires the bird to dive into the water.

Choice B is the best answer. The sentence emphasizes a similarity between the two ways a magnificent frigatebird acquires food, noting that neither way requires the seabird to dive into the water.

Choice A is incorrect. The sentence describes how a magnificent frigatebird captures prey without diving into water; it doesn't emphasize a similarity between the two ways the seabird acquires food. Choice C is incorrect. The sentence notes the term used to describe one of the two ways that magnificent frigatebirds acquire food; it doesn't emphasize a similarity between the two ways. Choice D is incorrect. The sentence describes the two ways that a magnificent frigatebird acquires food; it doesn't emphasize a similarity between the two ways.

Q7

D

D. Similarly,

Choice D is the best answer. “Similarly” logically signals that the information in the sentence—that Dove situates Beulah’s life in the context of the US Civil Rights Movement—is similar to the previous information about Thomas and the Great Migration. Both sentences support the first sentence’s claim that Dove portrays her characters in the context of broader historical narratives.

Choice A is incorrect because “specifically” illogically signals that the information about Beulah in this sentence provides specific details elaborating on the previous information about Thomas. Instead, it’s similar to the previous information about Thomas. Choice B is incorrect because “thus” illogically signals that the information about Beulah in this sentence is a result or consequence of the previous information about Thomas. Instead, it’s similar to the previous information about Thomas. Choice C is incorrect because “regardless” illogically signals that the information about Beulah in this sentence is true despite the previous information about Thomas. Instead, it’s similar to the previous information about Thomas.

Q8

C

- C. Locke-Rodriguez and colleagues found that FTWs using marigolds not only helped remove phosphorus from the water but also yielded market-quality blooms.
-

Choice C is the best answer. The sentence presents both findings from the study, noting that FTWs using marigolds both removed phosphorus from the water and yielded market-quality blooms.

Choice A is incorrect. While the sentence presents a finding from the study, the presentation is incomplete; the study found that marigolds cultivated on FTWs both removed phosphorus from the water and yielded market-quality blooms. Choice B is incorrect. The sentence misrepresents information in the notes. The figure of 52% refers to the amount of phosphorus removed by FTWs using marigolds when compared to the control; the marigolds' bloom yield was 65 market-quality blooms per square meter, and it was not compared to the control. Choice D is incorrect. The sentence misrepresents information in the notes. The FTWs using marigolds removed 52% more phosphorus from the water than did the control, not 52% of the total phosphorus. Additionally, the bloom figure is incomplete; the figure is 65 market-quality flower blooms per square meter.

Q9

B

B. Ultimately,

Choice B is the best answer. “Ultimately” logically signals that the information in this sentence—that, for Dillard, nature’s mesmerizing intricacy and pitiless harshness are inextricably linked—is the final conclusion or realization reached after her struggle to reconcile the juxtapositions of the natural world mentioned in the previous sentence.

Choice A is incorrect because “to that end” illogically signals that linking nature’s intricacy and harshness was Dillard’s deliberate goal or purpose in struggling to reconcile nature’s juxtapositions. Instead, the sentence presents her final realization after that struggle. Choice C is incorrect because “moreover” illogically signals that the information in this sentence merely adds to Dillard’s struggle to reconcile nature’s juxtapositions mentioned in the previous sentence. Instead, the sentence presents her final realization after that struggle. Choice D is incorrect because “hence” illogically signals that nature’s intricacy and harshness being linked is a direct consequence of Dillard’s struggle to reconcile the juxtapositions mentioned in the previous sentence. Instead, the sentence presents her final realization after that struggle.

Q10

C

C. Decades after the Japanese import of matsutake began, a commodity chain now links matsutake pickers in Oregon with wealthy consumers of the costly mushrooms in Japan.

Choice C is the best answer. The sentence provides an overview of the matsutake commodity chain, connecting the Oregon mushroom pickers at one end to the Japanese consumers at the other.

Choice A is incorrect. While the sentence mentions the matsutake commodity chain, it focuses only on its origins; it does not provide an overview. Choice B is incorrect. The sentence provides a general definition of commodity chains, not an overview of the matsutake chain. Choice D is incorrect. While the sentence mentions the matsutake commodity chain, it focuses only on one end of the chain (the consumers); it does not provide an overview.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
