10 answers · Rationale-rich · Teach from doc

Q1**C****C.** More often,

Choice C is the best answer. "More often" logically signals that the claim in this sentence—that new via ferratas favor recreation over utility—explains a difference between the new "sporting activity" routes and the older "mode of travel" routes. In so doing, it emphasizes and reinforces the previous claim ("modern via ferratas are rarely designed to simply reach a summit").

Choice A is incorrect because "additionally" illogically signals that this sentence's claim about new via ferratas adds a new, separate point to the previous claim ("modern via ferratas are rarely designed to simply reach a summit"). Instead, the second claim—that new routes favor recreation over utility—emphasizes and reinforces the previous one. Choice B is incorrect because "on the other hand" illogically signals that this sentence's claim about new via ferratas contrasts with or opposes the previous claim ("modern via ferratas are rarely designed to simply reach a summit"). Instead, the second claim—that new routes favor recreation over utility—emphasizes and reinforces the previous one. Choice D is incorrect because "nonetheless" illogically signals that this sentence's claim about new via ferratas is true despite the previous claim ("modern via ferratas are rarely designed to simply reach a summit"). Instead, the second claim—that new routes favor recreation over utility—emphasizes and reinforces the previous one.

Q2

D

- D. Exoplanet names have diverse origins, a fact that can be seen in the cases of Phobeter, a name drawn from Greek mythology, and Mastika, which means “gem” or “jewel” in Malay.
-

Choice D is the best answer. The sentence makes and supports a generalization about exoplanets, noting that the names of exoplanets have diverse origins and supporting this with the examples of the origins of "Phobeter" and "Mastika."

Choice A is incorrect. The sentence misrepresents information from the notes, implying that there are multiple exoplanets with the same names. Additionally, the sentence provides no support for its generalization. Choice B is incorrect. The sentence contrasts the masses of two specific exoplanets; it doesn't make and support a generalization about exoplanets. Choice C is incorrect. The sentence makes and supports a generalization about stars, not exoplanets.

Q3

B

- B. On the contrary,
-

Choice B is the best answer. "On the contrary" logically signals that the information in this sentence—that *Dies Irae*'s appearance of depth is merely an illusion—contrasts with the previous statement about a viewer's possible assumption regarding the street painting.

Choice A is incorrect because "additionally" illogically signals that this sentence is simply additional information about a viewer's possible assumption regarding the street painting. Instead, the information about how Wenner achieved the illusion of depth contrasts with the previous sentence's description of the illusion. Choice C is incorrect because "as a result" illogically signals that the information in this sentence is a result of, or caused by, a viewer's possible assumption regarding the street painting. Instead, the information about how Wenner achieved the illusion of depth contrasts with the previous sentence's description of the illusion. Choice D is incorrect because "next" illogically signals that the information in this sentence is the next step in a process. Instead, the information about how Wenner achieved the illusion of depth contrasts with the previous sentence's description of the illusion.

Q4

A

- A. During the dawn of quantum theory, Einstein maintained the independent reality of some subatomic entities, although Bohr’s opposing interpretation would become the widely accepted view.
-

Choice A is the best answer. The sentence places Einstein’s argument within the historical context of the development of quantum theory, noting that his argument—made during the dawn of the field—conflicted with Bohr’s argument, which became the widely accepted view.

Choice B is incorrect. The sentence misrepresents information from the notes, attributing the argument that electrons had a reality independent of observation to Bohr, not Einstein. In addition, while the sentence provides the date of the conference, it doesn’t place Einstein’s argument in the context of the development of quantum theory. Choice C is incorrect. The sentence indicates that Einstein attended the 1927 Solvay Conference; it doesn’t identify Einstein’s argument or place it in the historical context of the development of quantum theory. Choice D is incorrect. The sentence explains that Einstein and Bohr had a famous debate in 1927 and that Bohr’s argument remained popular decades afterward; it doesn’t identify Einstein’s argument or place it in the context of the development of quantum theory.

Q5

B

- B. ultimately,
-

Choice B is the best answer. “Ultimately” means “in the long run” or “at the highest level.” Although Bolívar wrote to a local merchant, his ultimate goal was to send a message to political leaders in Europe. Therefore, “ultimately” fits perfectly in this context.

Choice A is incorrect. This choice uses a transition that indicates the addition of an agreeing idea. However, the second part of the sentence actually disagrees with the first part. Bolívar addressed the letter to Cullen, but he was really sending a message to someone else. Notice how the contrast word “though” also acts as a transition between these ideas. Choice C is incorrect. This choice uses a cause-and-effect transition. Bolívar’s writing of the letter to Cullen would not cause him to have a goal of persuading European powers to support him. Choice D is incorrect. This choice uses a cause-and-effect transition. Bolívar’s writing of the letter to Cullen would not cause him to have a goal of persuading European powers to support him.

Q6

D

- D. The Alta conflict had a lasting impact, resulting in international attention and legal protections for Sámi rights to lands, waters, and resources.
-

Choice D is the best answer. It makes a generalization—the conflict had a lasting impact—and then supports it with evidence—the attention and protections were results of the conflict.

Choice A is incorrect. This choice doesn't make a generalization about the conflict. It describes a specific event from the conflict. Choice B is incorrect. This choice makes a generalization about the Alta conflict, but doesn't support it. Choice C is incorrect. This choice makes a statement about the aftermath of the conflict, but doesn't support it. The statement is also a little too specific to be a generalization.

Q7

B

- B. by contrast,
-

Choice B is the best answer. "By contrast" logically signals that the information about how Massey defined space—by focusing on socio-political forces—contrasts with the information in the previous clause, which discusses quantitative analytical approaches and spatial technologies.

Choice A is incorrect because "for example" illogically signals that the information that follows in the sentence exemplifies the quantitative analytical approaches to defining space described previously. Instead, the information about Massey's socio-political focus presents a contrasting approach. Choice C is incorrect because "as such" illogically signals that the information that follows in the sentence is a direct result or logical consequence of the quantitative analytical approaches to defining space described previously. Instead, the information about Massey's socio-political focus presents a contrasting approach. Choice D is incorrect because "likewise" illogically signals that the information that follows in the sentence is similar to the quantitative analytical approaches to defining space described previously. Instead, the information about Massey's socio-political focus presents a contrasting approach.

Q8

B

- B. Algorithms based on audio features may misidentify the main features of a song with varying acoustic traits, making such algorithms less reliable predictors of popularity than those based on fixed traits.
-

Choice B is the best answer. This choice uses relevant information from the notes to explain a disadvantage of relying on audio features to predict a song's popularity—namely, that it may misidentify features of certain songs. It also contrasts audio features with descriptive tags, which are more reliable predictors.

Choice A is incorrect. This choice only states a fact about the algorithms without evaluating their reliability or accuracy. Choice C is incorrect. This choice only describes the difference between audio features and descriptive tags without indicating why this difference matters for predicting popularity. Choice D is incorrect. This choice only mentions descriptive tags, which are not the focus of the student's rhetorical goal.

Q9

A

- A. Nevertheless,
-

Choice A is the best answer. “Nevertheless” logically signals that the information in this sentence—that the spacesuits Suttirat Larlarb designed for the film *Sunshine* were made in standard sizes in a factory—presents a notable exception to Larlarb's typical approach of custom-fitting garments to actors, which is described in the previous sentence.

Choice B is incorrect because “thus” illogically signals that the information in this sentence is a result or consequence of the previous information about Larlarb's typical approach of custom-fitting garments to actors. Instead, it presents a notable exception to Larlarb's typical approach. Choice C is incorrect because “likewise” illogically signals that the information in this sentence is similar to the previous information about Larlarb's typical approach of custom-fitting garments to actors. Instead, it presents a notable exception to Larlarb's typical approach. Choice D is incorrect because “moreover” illogically signals that the information in this sentence merely adds to the previous information about Larlarb's typical approach of custom-fitting garments to actors. Instead, it presents a notable exception to Larlarb's typical approach.

Q10

C

- C. Stephen Amos enlisted in the US Navy in 1863, making him one of the few sailors of Filipino descent to serve in the US Civil War (1861–1865).
-

Choice C is the best answer. Noting the time frame of the US Civil War and the fact that Amos enlisted during this time frame, the sentence emphasizes that Amos's enlistment date places him among the historically significant group of US Navy sailors of Filipino descent who served during the Civil War.

Choice A is incorrect. The sentence identifies Amos and Ignases and notes that Amos's enlistment date was later than Ignases's; the sentence doesn't explain the historical significance of the date. Choice B is incorrect. The sentence identifies Amos and Ignases as US Navy sailors of Filipino descent, noting Ignases's birth year; the sentence doesn't provide Amos's enlistment date or its historical significance. Choice D is incorrect. The sentence provides Amos's enlistment date and mentions that he served alongside a sailor of Filipino descent; it doesn't explain the historical significance of the date.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
