Q1**B****B.** Of course,

Choice B is the best answer. "Of course" logically signals that the information that follows—about many dances being "defined by order, repetition, and synchronicity"—acknowledges an obvious similarity between these dances and the previous description of the Madison. The sentence then goes on to emphasize a distinguishing feature of the Madison.

Choice A is incorrect because "however" illogically signals that the information that follows contrasts with the previous description of the Madison. Instead, the information about many dances' features acknowledges an obvious similarity between these dances and the Madison. The sentence then goes on to emphasize a distinguishing feature of the Madison. Choice C is incorrect because "specifically" illogically signals that the information that follows specifies or elaborates on the previous description of the Madison. Instead, the information about many dances' features acknowledges an obvious similarity between these dances and the Madison. The sentence then goes on to emphasize a distinguishing feature of the Madison. Choice D is incorrect because "moreover" illogically signals that the information that follows adds to or expands on the previous description of the Madison. Instead, the information about many dances' features acknowledges an obvious similarity between these dances and the Madison. The sentence then goes on to emphasize a distinguishing feature of the Madison.

Q2

C

- C. In DLS, UV light images are projected into a liquid resin pool to cure a 3D object layer by layer; once solidified, the object is baked in an oven.
-

Choice C is the best answer. The sentence describes how DLS cures 3D objects, noting that UV light is projected into resin to cure the object in layers, after which the object is baked to complete the curing process.

Choice A is incorrect. While the sentence does describe some elements of the curing process, the description misrepresents information in the notes; this sentence suggests that the UV light, rather than the 3D object, is baked in an oven. Choice B is incorrect. While the sentence does describe some elements of the curing process, the description misrepresents information in the notes: the UV light, not DLS, passes through the dead zone. Choice D is incorrect. While the sentence does describe some elements of the curing process, the description misrepresents information in the notes. This sentence suggests that curing is complete when the already-solidified resin passes through the dead zone; rather, liquid resin passes through the dead zone and is solidified in layers, after which curing is completed in the oven.

Q3

D

D. That said,

Choice D is the best answer. Scientists believe in fusion’s potential as an energy source, but have struggled to actually make it work—in other words, there is a contradiction between scientists’ beliefs and their reality. “That said” is a disagreement transition that works perfectly in this context.

Choice A is incorrect. This choice uses a cause-and-effect transition, which doesn’t make sense here. Scientists not being able to generate extra energy from lab fusion reactions isn’t an effect of them believing in fusion’s potential. Choice B is incorrect. This transition indicates the addition of another supporting point. But this sentence is not adding a supporting point to the previous sentence—scientists not being able to successfully generate energy from fusion isn’t another point in favor of fusion meeting humanity’s clean energy needs. Choice C is incorrect. This choice uses a transition that introduces or elaborates on a particular example. But this sentence doesn’t give an example of scientists’ belief in fusion’s potential to meet humanity’s clean energy needs—in fact, it contrasts that optimistic belief with the reality of past failures to successfully employ fusion for energy production.

Q4

C

C. Since 2003, Louise Miller Cohen and Vermelle Rodrigues have worked to preserve Gullah culture through their museums.

Choice C is the best answer. The sentence emphasizes both the duration (the length of time) and the purpose of Cohen’s and Rodrigues’s work by noting that the women have been working since 2003 to preserve Gullah culture.

Choice A is incorrect. While the sentence emphasizes what visitors to Cohen’s and Rodrigues’s museums can learn, it doesn’t mention the duration or purpose of the women’s work. Choice B is incorrect. While the sentence emphasizes the purpose of Cohen’s and Rodrigues’s work, it doesn’t mention the duration of that work (the length of time the women have been working to preserve Gullah culture). Choice D is incorrect. While the sentence emphasizes where and when Gullah culture developed, it doesn’t mention the duration or purpose of Cohen’s and Rodrigues’s work.

Q5

A

A. To that end,

Choice A is the best answer. "To that end" logically signals that the activity described in this sentence—Nazareth titling his course "Elvis as Anthology"—is meant to further Nazareth's goal of helping others understand Presley's music as an anthology with a wide range of influences.

Choice B is incorrect. "In sum" illogically signals that the activity described in this sentence summarizes Nazareth's view of Presley's music as an anthology. Instead, titling his course "Elvis as Anthology" is a way for him to promote this view. Choice C is incorrect. "That is" illogically signals that the activity described in this sentence is a clarification or interpretation of Nazareth's view of Presley's music as an anthology. Instead, titling his course "Elvis as Anthology" is a way for him to promote this view. Choice D is incorrect. "In addition" illogically signals that the activity described in this sentence is merely an additional fact about Nazareth. Instead, titling his course "Elvis as Anthology" is a way for him to promote his view of Presley's music as an anthology.

Q6

B

- B. Evidence that Khoesan and Basotho peoples may have found an *M. carinatus* phalanx as long ago as 1100 CE suggests that Plot may not have been the first person to have discovered dinosaur remains.
-

Choice B is the best answer. Noting that the evidence suggests Indigenous peoples may have found dinosaur remains in 1100 CE, the sentence emphasizes how the 1990 discovery challenged Plot's reputation as the first person to discover dinosaur remains.

Choice A is incorrect. While the sentence does emphasize that Benoit challenged Plot's reputation, it misrepresents information in the notes; Plot was reputed to be the first person to discover dinosaur remains in general, not the first person to discover *M. carinatus* remains specifically. Choice C is incorrect. The sentence only partially explains the significance of the 1990 discovery, noting that it suggests Indigenous people brought dinosaur remains to the cave in 1100 CE; it doesn't explain the discovery's significance to Plot's reputation. Choice D is incorrect. While the sentence does emphasize that the discovery challenged Plot's reputation, it misrepresents information in the notes. The notes don't indicate that the 1990 discovery cast any doubt on Plot's claims to have found fossilized dinosaur bones; rather, the discovery challenged Plot's reputation for being the first to discover dinosaur bones.

Q7

C

C. Of course,

Choice C is the best answer. "Of course" logically signals that the information in this sentence—that "the wavy staircase and ornate floral tilework" of the Modernista hospital couldn't actually grow in a forest—acknowledges an obvious limitation of, or qualification to, the previous claim that Modernista architects championed nature in their designs.

Choice A is incorrect because "furthermore" illogically signals that the information in this sentence merely adds to the previous claim that Modernista architects championed nature in their designs. Instead, the sentence acknowledges an obvious limitation in how literally that natural influence was expressed in the hospital's features. Choice B is incorrect because "similarly" illogically signals that the information in this sentence is similar to the previous claim that Modernista architects championed nature in their designs. Instead, the sentence acknowledges an obvious limitation in how literally that natural influence was expressed in the hospital's features. Choice D is incorrect because "thus" illogically signals that the information in this sentence is a result of the previous claim that Modernista architects championed nature in their designs. Instead, the sentence acknowledges an obvious limitation in how literally that natural influence was expressed in the hospital's features.

Q8

A

A. In 2012, director and visual effects artist Freddie Wong launched a new action-comedy web series: *Video Game High School*.

Choice A is the best answer. This choice introduces Wong and *VGHS* in an active and specific way, as if to an audience unfamiliar with the series. It also sets up the time and genre of the web series, which are useful ways to introduce the series of events in a narrative.

Choice B is incorrect. This choice isn't suited for beginning a narrative. A narrative is a story that follows a sequence of events and creates interest and suspense for the reader. This choice jumps to the end, explaining the success of *VGHS* without explaining what it is. Choice C is incorrect. This choice isn't suited for beginning a narrative. It doesn't actually introduce the web series by name. It just jumps to later in the story without sufficient explanation. Choice D is incorrect. This choice is not very effective for beginning a narrative. It doesn't explain what *VGHS* is, and it doesn't mention Wong.

Q9

C

C. What's more,

Choice C is the best answer. "What's more" logically signals that this sentence introduces an additional aspect of Wadud's poem beyond what was previously discussed. While the previous sentence establishes that Adnan's painting has inspired "the poem's exploration of temporality and identity," this sentence provides a separate, additional claim about the poem: that it reflects on poetry's relationship to other art forms.

Choice A is incorrect because "in other words" illogically signals that the information in this sentence is a paraphrase or restatement of the previous point about how Adnan's painting has inspired "the poem's exploration of temporality and identity." Instead, the sentence provides a separate, additional claim about the poem. Choice B is incorrect because "for instance" illogically signals that the information in this sentence supports the previous point about "the poem's exploration of temporality and identity" by providing an example. Instead, the sentence provides a separate, additional claim about the poem. Choice D is incorrect because "conversely" illogically signals that the information in this sentence is contrary to the previous point about how Adnan's painting has inspired "the poem's exploration of temporality and identity." Instead, the sentence provides a separate, additional claim about the poem.

Q10

D

- D. Nissologists' different definitions can result in huge disparities in counts of islands, as the example of Sweden shows.
-

Choice D is the best answer. The sentence makes a generalization about nissologists' definition of an island—specifically, that the use of one definition rather than another can result in huge disparities in the number of islands counted—and supports that generalization by citing Sweden as an example.

Choice A is incorrect. The sentence introduces one definition of an island to an audience unfamiliar with nissologists; it doesn't make a generalization about nissologists' definition of an island. Choice B is incorrect. While the sentence synthesizes information from the notes about counts of Sweden's islands, it doesn't make and support a generalization about nissologists' definition of an island. Choice C is incorrect. The sentence makes an inference about islands in Sweden; it doesn't mention nissologists' definition of an island or make a generalization about it.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
