Q1**B**

B. In so doing,

Choice B is the best answer. "In so doing" logically signals that the information in this sentence about Gibson's piece—that it blurs the distinction between contemporary art and traditional crafts—is a result or consequence of the piece's blending of particular Native and non-Native cultural symbols.

Choice A is incorrect. "Conversely" illogically signals that the information in this sentence contrasts with the previous information about the blending of particular cultural symbols in Gibson's piece. Instead, it presents a result or consequence of that information. Choice C is incorrect. "For instance" illogically signals that this sentence provides an example supporting the previous information about the blending of particular cultural symbols in Gibson's piece. Instead, it presents a result or consequence of that information. Choice D is incorrect. "In particular" illogically signals that this sentence provides specific details elaborating on the previous information about the blending of particular cultural symbols in Gibson's piece. Instead, it presents a result or consequence of that information.

Q2

C

- C. The influence theory holds that the principles of the Great Law of Peace, a centuries-old agreement binding six Native nations in the northeastern US, influenced the US Constitution.
-

Choice C is the best answer. The sentence effectively presents the influence theory to an audience unfamiliar with the Haudenosaunee Confederacy, explaining the theory's position that the Great Law of Peace influenced the US Constitution while avoiding mention of the Haudenosaunee Confederacy itself.

Choice A is incorrect. The sentence broadly emphasizes Johansen's ideas about the Great Law of Peace; it doesn't identify the influence theory or effectively present it. Choice B is incorrect. The sentence emphasizes one fact that supports the influence theory; it doesn't effectively present the theory to an audience unfamiliar with the Haudenosaunee Confederacy. Choice D is incorrect. The sentence makes a broad generalization about Native people's influence on the founding of the US; it doesn't effectively present the influence theory.

Q3

B

- B. In many cases,
-

Choice B is the best answer. The first sentence makes the claim that using grime-eating bacteria has led to "impressive results." This sentence supports that claim by describing the specific findings of the biologists' experimentation. The transition "in many cases" fits the context perfectly.

Choice A is incorrect. This choice uses a disagreement transition. But this sentence actually agrees with the previous sentence. Both claim that grime-eating bacteria are better at cleaning artworks than chemicals. Choice C is incorrect. This choice uses a cause-and-effect transition, which doesn't make sense in context. The fact that the results of the experimentation have been impressive overall doesn't cause the bacteria to have proven more effective. Choice D is incorrect. This choice uses a transition that indicates the addition of a new idea. But this sentence doesn't introduce a new idea. Instead, it elaborates on the same idea laid out in the previous sentence by describing the "impressive results" in more detail.

Q4

B

- B. The cane fanner basket, which is included in the Hina Hanta online archive, is called an *ufko tapushik* in Choctaw.
-

Choice B is the best answer. The sentence specifies the fanner basket's name in Choctaw, noting that it's called *ufko tapushik*.

Choice A is incorrect. While the sentence mentions the fanner basket, it doesn't specify its name in Choctaw. Choice C is incorrect. While the sentence mentions the fanner basket, it doesn't specify its name in Choctaw. Choice D is incorrect. The sentence doesn't mention the fanner basket or specify its name in Choctaw.

Q5

D

- D. by contrast,
-

Choice D is the best answer. This sentence compares two examples of Posey's tone: the "heartfelt language" he used in his poetry versus the "humor and satire" he used in his journalism. We know from these descriptions and from the claim in the previous sentence that the two tones are very different from each other. So the transition "by contrast" fits the context perfectly.

Choice A is incorrect. This choice uses a transition that indicates a restatement of the same idea in other words. But the text isn't restating the first example here. Instead, it's offering a second, totally different example. Choice B is incorrect. This choice uses a transition that means "admittedly." But the text isn't admitting or conceding anything here. Instead, these two examples work together to support the claim made in the first sentence. Choice C is incorrect. This choice uses a transition that indicates the addition of an agreeing idea. But these two examples are intentionally very different from each other, so "similarly" doesn't make sense here.

Q6

D

- D. In *Unwoven Light*, a 2013 work by Korean American artist Soo Sunny Park, light formed colorful prisms as it passed through a fence Park had fitted with iridescent tiles.
-

Choice D is the best answer. The sentence effectively describes *Unwoven Light* to an audience unfamiliar with Park, noting that Soo Sunny Park is a Korean American artist and that the 2013 work consists of colorful prisms formed by light passing through iridescent tiles.

Choice A is incorrect. The sentence describes aspects of *Unwoven Light* but doesn't mention who Park is; it thus doesn't effectively describe the work to an audience unfamiliar with Park. Choice B is incorrect. Although the sentence indicates when the work was created and who Park is, it lacks descriptive details and thus doesn't effectively describe *Unwoven Light*. Choice C is incorrect. The sentence mentions Park and describes an aspect of *Unwoven Light*—the chain-link fence—but doesn't effectively describe the overall work to an audience unfamiliar with the artist.

Q7

D

- D. Specifically,
-

Choice D is the best answer. "Specifically" logically signals that the information about Pleasant's 1866 lawsuit provides specific, precise details elaborating on the previous point that Pleasant successfully challenged discrimination in California.

Choice A is incorrect because "for this reason" illogically signals that Pleasant's 1866 lawsuit was a result of her successful challenge to discrimination in California. Instead, this sentence provides specific details elaborating on her challenge to discrimination in the state. Choice B is incorrect because "then" illogically signals that Pleasant's 1866 lawsuit was subsequent to or resulted from her successful challenge to discrimination in California. Instead, this sentence provides specific, precise details elaborating on how she challenged discrimination in the state. Choice C is incorrect because "in addition" illogically signals that the information about Pleasant's 1866 lawsuit is merely additional to the previous point that Pleasant successfully challenged discrimination in California. Instead, this sentence provides specific details elaborating on how she did so.

Q8

D

- D. By interbreeding with Tibetan wolves around 24,000 years ago, Tibetan mastiffs acquired the genetic mutations that enable them to withstand hypoxic conditions.
-

Choice D is the best answer. The sentence presents the conclusion of Zhen Wang and colleagues' 2016 study: Tibetan mastiffs are able to withstand hypoxic conditions due to their interbreeding with Tibetan wolves 24,000 years ago (which allowed the mastiffs to acquire the necessary genetic mutations).

Choice A is incorrect. The sentence emphasizes a similarity between Tibetan mastiffs and Tibetan wolves; it doesn't present the conclusions of the 2016 study. Choice B is incorrect. The sentence emphasizes a similarity between the genes of Tibetan mastiffs and Tibetan wolves; it doesn't present the conclusions of the 2016 study. Choice C is incorrect. The sentence misrepresents information from the notes by indicating that a mutation in mastiffs' HBB gene prevents excess hemoglobin production; moreover, it doesn't present the conclusions of the 2016 study.

Q9

D

- D. that is,
-

Choice D is the best answer. "That is" logically signals that the information that follows in the sentence clarifies a term used in the previous discussion of the researchers' findings: cognate replacement.

Choice A is incorrect because "for example" illogically signals that the information that follows in the sentence provides a specific example of the research findings described earlier. Instead, it clarifies a term introduced earlier in the sentence. Choice B is incorrect because "likewise" illogically signals that the information that follows in the sentence is similar to the previous information about the researchers' findings. Instead, it clarifies a term introduced earlier in the sentence. Choice C is incorrect because "in addition" illogically signals that the information that follows in the sentence merely adds to the previous information about the researchers' findings. Instead, it clarifies a term introduced earlier in the sentence.

Q10

C

C. Flora McNeil began her career as a lighthouse keeper years after Maria Younghans did.

Choice C is the best answer. The sentence emphasizes the order in which the two lighthouse keepers began their careers, noting that McNeil, who became the keeper at Bridgeport Breakwater Light in 1904, began her career years after Younghans, who became the keeper at Biloxi Light in 1867.

Choice A is incorrect because it makes a generalization about the effects of McNeil's and Younghans's work; it doesn't emphasize the order in which the two keepers began their careers. In addition, the sentence misrepresents information from the notes; McNeil was the keeper at a lighthouse in Connecticut from 1904 to 1920, not at a lighthouse in Mississippi from 1867 to 1918. Choice B is incorrect. The sentence claims that Younghans and McNeil were crucial to ensuring the safety of watercraft before lighthouses became automated; it doesn't emphasize the order in which the two keepers began their careers. Choice D is incorrect. The sentence emphasizes when the lighthouse keepers' respective careers ended; it doesn't emphasize the order in which the two keepers began their careers.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
