Q1**C**

C. by contrast,

Choice C is the best answer. “By contrast” logically signals that the information about bathymetric maps in this sentence—that they show landforms’ elevation below the sea—presents a direct contrast to the previous information about topographic maps showing landforms’ elevation above sea level.

Choice A is incorrect because “in conclusion” illogically signals that the information about bathymetric maps in this sentence concludes or summarizes the previous information about topographic maps. Instead, the sentence provides contrasting information about bathymetric maps. Choice B is incorrect because “for example” illogically signals that the information about bathymetric maps in this sentence exemplifies the previous information about topographic maps. Instead, the sentence provides contrasting information about bathymetric maps. Choice D is incorrect because “afterward” illogically signals that this sentence describes an event that chronologically follows the previous information about topographic maps. Instead, the sentence provides contrasting information about bathymetric maps.

Q2**D**

D. In Kang’s portrait of her, Fung is seated on the floor, with five of her paintings resting against the wall behind her.

Choice D is the best answer. The sentence describes Fung’s location in Kang’s photograph, noting that Fung is seated on the floor. Additionally, because the sentence is intended for an audience already familiar with the artists, it omits the artists’ first names and other biographical information about them.

Choice A is incorrect. The sentence indicates that Fung appears in Kang’s photograph; it doesn’t describe Fung’s location in Kang’s photograph. Choice B is incorrect. The sentence identifies Kang and where she is based; it doesn’t describe Fung’s location in Kang’s photograph. Choice C is incorrect. The sentence describes the background of Kang’s photograph; it doesn’t describe Fung’s location in Kang’s photograph.

Q3

C

- C. The “Women and the Vote” format appealed to audiences because it allowed them to control the experience.
-

Choice C is the best answer. The sentence explains an advantage of the “Women and the Vote” format, noting that the format appealed to audiences because it allowed them to control the experience.

Choice A is incorrect. The sentence describes a digital drawing on the “Women and the Vote” website; it doesn’t explain an advantage of the play’s format. Choice B is incorrect. The sentence explains how audiences interacted with the “Women and the Vote” website; it doesn’t explain an advantage of the play’s format. Choice D is incorrect. While the sentence mentions that “Women and the Vote” had an interactive format, it doesn’t explain what advantage this format might have.

Q4

C

- C. Completed in 1867, Lewis’s sculpture *Forever Free* commemorates the Emancipation Proclamation, which had been issued four years previously.
-

Choice C is the best answer. The sentence explains the specific historical context of Lewis’s sculpture, noting that it commemorates the Emancipation Proclamation, which was issued four years before the sculpture was completed in 1867.

Choice A is incorrect. The sentence quotes an art historian’s general interpretation of the sculpture’s meaning; it doesn’t explain the sculpture’s specific historical context. Choice B is incorrect. While the sentence mentions a historically significant phrase on the sculpture’s base, it doesn’t explain the specific historical context of the phrase or the sculpture. Choice D is incorrect. The sentence provides biographical information about Lewis; it doesn’t explain the specific historical context of the sculpture.

Q5

A

- A. *The Hobbit*'s opening map introduces readers to the fictional world they are about to enter, while the closing map allows them to reconstruct the story they have just read.
-

Choice A is the best answer. The sentence contrasts the purposes of the two maps in *The Hobbit*, noting that the opening map introduces readers to the book's fictional world, while the closing map helps readers reconstruct the story. The word "while" helps signal a contrast between the purposes of the maps.

Choice B is incorrect. While the sentence mentions the two maps, it doesn't contrast the maps' purposes. Choice C is incorrect. While the sentence mentions the two maps and notes that each has a purpose, it doesn't specify what those purposes are or how they contrast. Choice D is incorrect. While the sentence mentions the two maps, it doesn't contrast the maps' purposes.

Q6

C

- C. Cosmochemist Kentaro Terada set out to determine whether some of the Moon's oxygen was coming from Earth.
-

Choice C is the best answer. The sentence emphasizes the aim, or goal, of the research study, noting what Terada set out to do: determine whether some of the Moon's oxygen was coming from Earth.

Choice A is incorrect. The sentence focuses on how the Kaguya satellite collected data; it doesn't emphasize the aim of the research study. Choice B is incorrect. While the sentence mentions what Terada was curious about before conducting the research study, it doesn't emphasize his study's aim. Choice D is incorrect. The sentence presents the research study's conclusion; it doesn't emphasize the study's aim.

Q7

A

- A. Macaques in the study called out to and gestured more frequently at humans holding food than at empty-handed humans.
-

Choice A is the best answer. This choice presents the study's results from the last two bullet points.

Choice B is incorrect. This choice describes the background and motivation of the study but not the outcome or findings. Choice C is incorrect. This choice describes the research question or hypothesis of the study but not the evidence or conclusion. Choice D is incorrect. This choice describes the method or design of the study but not the actual results.

Q8

B

- B. Among Australia's many invertebrates, sawflies, wasps, bees, and ants belong to the order Hymenoptera, while beetles and weevils belong to the order Coleoptera.
-

Choice B is the best answer. The sentence emphasizes the different orders that Australia's invertebrates belong to, specifying that sawflies, wasps, bees, and ants belong to the order Hymenoptera, whereas beetles and weevils belong to the order Coleoptera.

Choice A is incorrect. The sentence only mentions one order, Coleoptera; it doesn't emphasize the different orders that Australia's invertebrates belong to. Choice C is incorrect. The sentence only mentions one order, Hymenoptera; it doesn't emphasize the different orders that Australia's invertebrates belong to. Choice D is incorrect. The sentence only mentions one order, Hymenoptera; it doesn't emphasize the different orders that Australia's invertebrates belong to.

Q9

B

- B. A 2013 analysis of cat bone fragments found in Quanhucun, China, suggests that cats there may have been domesticated 5,300 years ago.
-

Choice B is the best answer. The sentence presents the study, describing it as a 2013 analysis of Quanhucun cat bone fragments, and its conclusions, indicating what the analysis suggests about cat domestication in Quanhucun.

Choice A is incorrect because the sentence focuses on the study's methodology; it doesn't present conclusions from the study. Choice C is incorrect. While the sentence provides a general overview of the study, it doesn't present conclusions from the study. Choice D is incorrect. The sentence describes a finding from the study; it doesn't present conclusions from the study.

Q10

D

- D. C-type asteroids are mainly composed of carbon, whereas S-type asteroids are primarily made up of silicate minerals.
-

Choice D is the best answer. The sentence emphasizes a difference between C-type and S-type asteroids, noting that C-type asteroids are mainly composed of carbon, while S-type asteroids are mainly composed of silicate minerals.

Choice A is incorrect. The sentence states that C-type and S-type are two types of asteroids, but it doesn't emphasize a difference between them. Choice B is incorrect because it doesn't directly mention C-type or S-type asteroids. Choice C is incorrect. While the sentence mentions that 17 percent of known asteroids are S-type asteroids, it doesn't identify the percentage of asteroids that are C-type. Therefore, the sentence doesn't emphasize a difference between the two types.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
