Q1**C**

C. Indeed,

Choice C is the best answer. "Indeed" logically signals that the description of the art installation in this sentence—its blue room and preening unicorn that leave visitors "dazzled and confused"—offers additional emphasis in support of the previous sentence's claim about the installation's "whimsical yet perplexing experience."

Choice A is incorrect because "second" illogically signals that the description in this sentence is a second, separate claim from the previous sentence's claim about the installation's "whimsical yet perplexing experience." Instead, the specific details describing the installation emphasize and support the previous claim. Choice B is incorrect because "instead" illogically signals that the description in this sentence is an alternative to the previous sentence's claim about the installation's "whimsical yet perplexing experience." Rather, the specific details describing the installation emphasize and support that claim. Choice D is incorrect because "nevertheless" illogically signals that the description in this sentence is true despite the previous sentence's claim about the installation's "whimsical yet perplexing experience." Instead, the specific details describing the installation emphasize and support that claim.

Q2**D**

D. *Uros Island* is an LED light sculpture made by Grimanesa Amoros, as is *Fortuna*.

Choice D is the best answer. The sentence emphasizes a similarity between the sculptures, noting that both *Uros Island* and *Fortuna* are LED light sculptures created by Grimanesa Amoros.

Choice A is incorrect. Noting that *Uros Island*'s smooth LED domes contrast with *Fortuna*'s tangled LED tubes, the sentence emphasizes a difference between the two sculptures rather than a similarity. Choice B is incorrect. Contrasting the respective sizes of *Uros Island* and *Fortuna*, the sentence emphasizes a difference between the two sculptures rather than a similarity. Choice C is incorrect. While the sentence describes *Uros Island*, it doesn't mention *Fortuna* or emphasize any similarity between the two sculptures.

Q3

C

C. Still,

Choice C is the best answer. "Still" logically signals that the information in this sentence about Old Faithful's thriving bacteria species is true despite the previous claim that conditions at the geyser seem as if they would be inhospitable to life.

Choice A is incorrect because "thus" illogically signals that the information in this sentence is a result or consequence of the previous claim about Old Faithful's seemingly inhospitable conditions. Instead, this information about the geyser's many thriving bacteria species is true despite the previous claim. Choice B is incorrect because "specifically" illogically signals that the information in this sentence provides specific, precise details elaborating on the previous claim about Old Faithful's seemingly inhospitable conditions. Instead, this information about the geyser's many thriving bacteria species is true despite the previous claim. Choice D is incorrect because "in other words" illogically signals that the information in this sentence serves as a paraphrase or restatement of the previous claim about Old Faithful's seemingly inhospitable conditions. Instead, this information about the geyser's many thriving bacteria species is true despite the previous claim.

Q4

D

D. Established in 1841, Brook Farm was a utopian community created to “guarantee the highest mental freedom, by providing all with labor... [and] the fruits of their industry,” according to founder George Ripley.

Choice D is the best answer. This choice explains the goal of Brook Farm—to provide mental freedom to all by engaging individuals in labor suited to their interests—using a quotation from George Ripley.

Choice A is incorrect. This choice only mentions part of Ripley's goal, and it doesn't mention Brook Farm at all. Choice B is incorrect. This choice defines what a utopia is but doesn't use Ripley's words to describe his vision for Brook Farm. Choice C is incorrect. This choice provides some background information about Brook Farm, but it doesn't explain its goals or include Ripley's words.

Q5

A

A. There,

Choice A is the best answer. "There" indicates that the work of calculating Coordinated Universal Time takes place at the International Bureau of Weights and Measures in France. Because "there" indicates a location, it fits the context perfectly.

Choice B is incorrect. This choice uses an exemplification transition, which doesn't make sense here. This sentence is describing where the work of coordinating Coordinated Universal Time takes place, not giving an example of the work described in the previous sentence. Choice C is incorrect. This choice uses an exemplification transition, which doesn't make sense here. This sentence is describing where the work of coordinating Coordinated Universal Time takes place, not giving an example of the work described in the previous sentence. Choice D is incorrect. This choice uses a disagreement transition. But this sentence doesn't disagree with the previous sentence. They both describe the work involved in calculating Coordinated Universal Time.

Q6

D

D. Redesigning a poorly designed city flag can create a meaningful symbol of civic pride, as was the case when Pocatello redesigned its original flag to better represent its geography and civic priorities.

Choice D is the best answer. The sentence makes and supports a generalization about the effect of redesigning a city flag, noting that redesigning a city flag can create a meaningful symbol of civic pride, as was the case when the city of Pocatello redesigned its flag.

Choice A is incorrect because the sentence explains that many US cities have redesigned their flags and provides an example; it doesn't make and support a generalization about the effect of redesigning a city flag. Choice B is incorrect because the sentence provides an example of a city that redesigned its flag; it doesn't make and support a generalization about the effect of redesigning a city flag. Choice C is incorrect because the sentence emphasizes why the flag of Pocatello was redesigned; it doesn't make and support a generalization about the effect of redesigning a city flag.

Q7**D**

D. Thus,

Choice D is the best answer. “Thus” logically signals that the claim in this sentence—that animals performing only basic actions should allocate relatively few resources to their brain tissue—is a consequence of the previous sentence’s claim about the energy demands of animal brains (namely, that the more diverse an animal’s behaviors, the more energy its brain needs).

Choice A is incorrect because “subsequently” illogically signals that the claim in this sentence occurs later in a chronological sequence of events than the previous sentence’s claim about the energy demands of animal brains. Instead, the second claim is a consequence of the first. Choice B is incorrect because “besides” illogically signals that the claim in this sentence provides a separate point in addition to, or apart from, the previous sentence’s claim about the energy demands of animal brains. Instead, the second claim is a consequence of the first. Choice C is incorrect because “nevertheless” illogically signals that the claim in this sentence is true in spite of the previous sentence’s claim about the energy demands of animal brains. Instead, the second claim is a consequence of the first.

Q8**C**

C. The first synchrotron created for the purpose of providing synchrotron light, Tantalus, was housed near the University of Wisconsin–Madison.

Choice C is the best answer. After identifying Tantalus as the first synchrotron built to provide light, the sentence emphasizes its location.

Choice A is incorrect. While the sentence identifies Tantalus as the first synchrotron built to provide light, it doesn’t emphasize (or mention) its location. Choice B is incorrect. The sentence describes synchrotrons and how researchers use them; it doesn’t emphasize (or mention) the location of Tantalus. Choice D is incorrect. The sentence describes synchrotron light and how researchers use it; the sentence doesn’t emphasize (or mention) the location of Tantalus.

Q9

D

D. Nevertheless,

Choice D is the best answer. “Nevertheless” logically signals that the claim in this sentence—that the telegenic Kennedy was ultimately considered the winner of the debate—is true despite the previous information about the poll of radio listeners.

Choice A is incorrect because “in other words” illogically signals that the claim in this sentence is a paraphrase of the previous information about the poll of radio listeners. Instead, Kennedy was ultimately considered the winner despite what that poll suggested about his performance. Choice B is incorrect because “therefore” illogically signals that the claim in this sentence is a result of the previous information about the poll of radio listeners. Instead, Kennedy was ultimately considered the winner despite what that poll suggested about his performance. Choice C is incorrect because “likewise” illogically signals that the claim in this sentence is similar to the previous information about the poll of radio listeners. Instead, Kennedy was ultimately considered the winner despite what that poll suggested about his performance.

Q10

D

D. Shaun Tan’s books *Tales from Outer Suburbia* and *Tales from the Inner City* both describe surreal events occurring in otherwise ordinary places.

Choice D is the best answer. The sentence uses “both” to emphasize a thematic similarity between Tan’s two books, noting that both *Tales from Outer Suburbia* and *Tales from the Inner City* describe surreal events occurring in otherwise ordinary places.

Choice A is incorrect. The sentence emphasizes a difference (one contains fewer stories than the other), not a similarity, between the two books. Choice B is incorrect. The sentence indicates that Tan’s books were published ten years apart; it doesn’t emphasize a similarity between the two books. Choice C is incorrect. The sentence uses “unlike” to emphasize a difference between *Tales from Outer Suburbia* and *Tales from the Inner City*; it doesn’t emphasize a similarity between the two books.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
