Q1**B****B.** That said,

Choice B is the best answer. "That said" logically signals that the statement in this sentence—that Metzinger offers a glimpse of four-dimensional space by depicting multiple, simultaneous perspectives—is true despite the point in the previous sentence (that Metzinger's painting doesn't technically represent a fourth dimension because humans can only see in three dimensions).

Choice A is incorrect because "moreover" illogically signals that the information in this sentence merely adds to the previous point about Metzinger's painting. Instead, it provides information that is true despite that previous point. Choice C is incorrect because "in other words" illogically signals that the information in this sentence is a paraphrase or restatement of the previous point about Metzinger's painting. Instead, it provides information that is true despite that previous point. Choice D is incorrect because "for example" illogically signals that the information in this sentence provides an example that supports the previous point about Metzinger's painting. Instead, it provides information that is true despite that previous point.

Q2

A

- A. The international Slow Food movement, founded in 1989, promotes universal access to healthy, high-quality food that is produced sustainably by workers who are treated and compensated fairly.
-

Choice A is the best answer. The sentence effectively introduces the Slow Food movement to a new audience, explaining that the movement, which was founded in 1989, promotes universal access to high-quality and healthy food that is produced sustainably by workers who are treated fairly.

Choice B is incorrect. While the sentence indicates when the international Slow Food movement and the Slow Food USA organization were founded, it doesn't effectively introduce the movement to a new audience. Choice C is incorrect. While the sentence notes that the Slow Food movement includes advocacy for food production workers, it doesn't effectively introduce the movement to a new audience. Choice D is incorrect. While the sentence describes some of the goals of the Slow Food movement, it doesn't effectively introduce the movement to a new audience.

Q3

C

- C. Moreover,
-

Choice C is the best answer. The first sentence tells us that “wishcycling” is harmful, the previous sentence gives us an example, and this sentence gives us another example. So “moreover”—a transition that indicates the addition of another supporting point—fits perfectly here.

Choice A is incorrect. This choice uses a transition that means “appropriately” or “suitably,” which doesn't make sense in context. This sentence adds another example of how “wishcycling” is harmful, so we're looking for an addition transition. Choice B is incorrect. This choice uses a disagreement transition. But this sentence actually agrees with the previous sentence. Both provide examples of how “wishcycling” is harmful. Choice D is incorrect. This choice uses a disagreement transition. But this sentence actually agrees with the previous sentence. Both provide examples of how “wishcycling” is harmful.

Q4

C

- C. Like many of Tubbs's sculptures, both *Erasure* and *Home Grown* include discarded objects: *Erasure* uses audiocassette tapes, and *Home Grown* uses plastic forks.
-

Choice C is the best answer. This choice most effectively emphasizes "a similarity" by identifying a trait the works share: "both *Erasure* and *Home Grown* include discarded objects."

Choice A is incorrect. This choice doesn't "emphasize a similarity." Instead, this choice shows how the materials used in the two works are different. Notice the use of the contrast word "however." Choice B is incorrect. This choice doesn't "emphasize a similarity between the two works." While it says that Tubbs's work "often features discarded objects," it doesn't provide details about the two works in question. Choice D is incorrect. This choice doesn't "emphasize a similarity." Instead, this choice shows how the works were produced at different times.

Q5

B

- B. For this reason,
-

Choice B is the best answer. "For this reason" logically signals that the reason Joseph Priestley termed oxygen "dephlogisticated air" was that he accepted the theory mentioned in the previous sentence—that the presence of phlogiston, rather than the absence of oxygen, causes fire in a closed container to go out.

Choice A is incorrect because "in other words" illogically signals that the information about Priestley terming oxygen "dephlogisticated air" is a restatement of the previous theory concerning phlogiston. Instead, Priestley chose the term as a result of this theory. Choice C is incorrect because "alternatively" illogically signals that Priestley termed oxygen "dephlogisticated air" as an alternative to the previous theory concerning phlogiston. Instead, Priestley chose the term as a result of this theory. Choice D is incorrect because "nevertheless" illogically signals that Priestley termed oxygen "dephlogisticated air" despite the previous theory concerning phlogiston. Instead, Priestley chose the term as a result of this theory.

Q6

B

- B. Houser’s sculptures employ abstract, modernist forms to depict Native American figures.
-

Choice B is the best answer. The sentence describes the distinctive style of Houser’s sculptures, explaining that the sculptures use abstract, modernist forms to depict Native American figures.

Choice A is incorrect. While the sentence indicates that Houser developed a distinctive style for portraying Native American figures, it doesn’t describe this style. Choice C is incorrect. While the sentence states that other artists have been influenced by the style of Houser’s sculptures, it doesn’t describe this style. Choice D is incorrect. While the sentence mentions the name of a sculpture that’s a well-known example of Houser’s style, it doesn’t describe the sculpture’s style.

Q7

D

- D. In fact,
-

Choice D is the best answer. “In fact” logically signals that the information in this sentence—that McFerrin finds the research phase of her work to be just as fascinating as travel—emphasizes and elaborates on the previous sentence’s point that McFerrin regards background research as a rewarding activity.

Choice A is incorrect because “by contrast” illogically signals that the information in this sentence contrasts with the previous sentence’s point about McFerrin’s attitude toward background research. Instead, it emphasizes and elaborates on that point. Choice B is incorrect because “likewise” illogically signals that this sentence merely adds a second, similar point to the previous sentence’s point about McFerrin’s attitude toward background research. Instead, it emphasizes and elaborates on that point. Choice C is incorrect because “besides” illogically signals that this sentence provides a separate point in addition to, or apart from, the previous sentence’s point about McFerrin’s attitude toward background research. Instead, it emphasizes and elaborates on that point.

Q8

A

- A. The recent destructive behavior of Iberian orcas may be the result of understimulation, given that orcas' interactions with marine vessels have increased as the orcas have spent less time hunting.
-

Choice A is the best answer. The sentence makes and supports a claim about Iberian orca behavior, claiming that the orcas' destructive behavior may be the result of understimulation and citing as support the fact that as orcas have spent less time hunting (a stimulating activity), encounters with vessels have increased.

Choice B is incorrect. While the sentence makes a claim about an orca deterrent, it misrepresents information from the notes. The workshop advised avoiding orcas pending further testing of TAST's efficacy; it didn't claim that TAST was effective. Choice C is incorrect. The sentence describes a workshop that addressed the orcas' behavior; it doesn't make or support a claim about their behavior. Choice D is incorrect. While the sentence does make a claim about orcas' hunting behavior, it misrepresents information from the notes; the notes state that increased tuna populations have reduced orcas' hunting time by 99%, not that tuna populations have increased by 99% because of the orcas' behavior.

Q9**C**

C. Similarly,

Choice C is the best answer. “Similarly” logically signals that the activity described in this sentence (Nancy Tuttle Craig distributing Votes for Women Tea in her Los Angeles grocery stores) is like the activity described in the previous sentence (the Woman’s Suffrage Party selling Equality Tea at fairs in San Francisco). Together, the two examples support the preceding claim that “activists across the state sold tea to promote the cause of suffrage.”

Choice A is incorrect because “for example” illogically signals that the activity described in this sentence exemplifies the activity described in the previous sentence. Instead, the two activities are similar, and both support the preceding claim about selling tea to promote women’s right to vote. Choice B is incorrect because “to conclude” illogically signals that the activity described in this sentence concludes or summarizes the information in the previous sentences. Instead, the activity is similar to the one described in the previous sentence, and both support the preceding claim about selling tea to promote women’s right to vote. Choice D is incorrect because “in other words” illogically signals that the activity described in this sentence paraphrases the activity described in the previous sentence. Instead, the two activities are similar, and both support the preceding claim about selling tea to promote women’s right to vote.

Q10**C**

C. When the molten salt in a freeze-thaw battery solidifies at room temperature, energy stops flowing and can be stored in the battery.

Choice C is the best answer. The sentence specifies how the salt in a freeze-thaw battery enables energy storage, explaining that energy stops flowing and can be stored when the salt solidifies at room temperature.

Choice A is incorrect. The sentence explains some properties of molten salt; it doesn’t specify how that salt enables energy storage. Choice B is incorrect. The sentence indicates how the energy in a freeze-thaw battery can be released; it doesn’t specify how the salt in the battery enables energy storage. Choice D is incorrect. The sentence specifies how much charge the freeze-thaw battery retains when storing energy; it doesn’t specify how the salt in the battery enables energy storage.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
