Q1**C**

C. Consequently,

Choice C is the best answer. “Consequently” logically signals that the information in this sentence—that many individual gold prospectors gave up their fortune-hunting dreams and became employees of mining companies—is a result or consequence of the previous information about the inaccessibility of the state’s gold deposits.

Choice A is incorrect because “furthermore” illogically signals that the information in this sentence merely adds to the previous information about the inaccessibility of the state’s gold deposits. Instead, it’s a result or consequence of that information. Choice B is incorrect because “still” illogically signals that the information in this sentence offers a contrast or exception to the previous information about the inaccessibility of the state’s gold deposits. Instead, it’s a result or consequence of that information. Choice D is incorrect because “next” illogically signals that the information in this sentence is the next step in a process. Instead, it’s a result or consequence of the previous information about the inaccessibility of the state’s gold deposits.

Q2**A**

A. The Qianmen Dajie pedestrian mall has roots as far back as the Ming dynasty; likewise, Rue Mouffetard has existed for centuries.

Choice A is the best answer. The sentence emphasizes a similarity between the ages of the two pedestrian malls, noting that both are relatively old—Qianmen Dajie has roots that go back hundreds of years and Rue Mouffetard has existed for centuries.

Choice B is incorrect. The sentence emphasizes that both locations are famous pedestrian malls and notes that they are in different locations; it doesn’t emphasize a similarity in their ages. Choice C is incorrect. While the sentence emphasizes that both locations are pedestrian malls, it doesn’t emphasize a similarity in their ages. Choice D is incorrect. The sentence explains that Qianmen Dajie and Rue Mouffetard are examples of pedestrian malls and gives information about pedestrian malls in general; it doesn’t emphasize a similarity in the ages of these two malls specifically.

Q3

B

B. Additionally,

Choice B is the best answer. “Additionally” logically signals that the claim in this sentence—that some Supreme Court justices worry that viewers (of televised court arguments) would watch only short, misleading clips—adds to the information in the previous sentence. Specifically, the previous sentence indicates one concern raised by those opposed to televising the court’s oral arguments, and the claim that follows indicates a second, additional concern.

Choice A is incorrect because “however” illogically signals that the claim in this sentence contrasts with the information in the previous sentence. Instead, the claim adds to the information, indicating a second, additional concern that some Supreme Court justices have about televising the court’s arguments. Choice C is incorrect because “in comparison” illogically signals that the claim in this sentence is being compared to the information in the previous sentence. Instead, the claim adds to the information, indicating a second, additional concern that some Supreme Court justices have about televising the court’s arguments. Choice D is incorrect because “for example” illogically signals that the claim in this sentence exemplifies the information in the previous sentence. Instead, the claim adds to the information, indicating a second, additional concern that some Supreme Court justices have about televising the court’s arguments.

Q4

A

A. The real author of *Adam Bede* was Mary Ann Evans, who published the novel using the pseudonym George Eliot.

Choice A is the best answer. The sentence identifies the novel’s real author, explaining that Mary Ann Evans published the novel under the pseudonym of George Eliot.

Choice B is incorrect. The sentence explains that George Eliot was assumed to be a pseudonym; it doesn’t identify the novel’s real author. Choice C is incorrect. The sentence specifies the pseudonym used on the novel’s title page; it doesn’t identify the novel’s real author. Choice D is incorrect. While the sentence indicates that the novel’s real author used a pseudonym, it doesn’t identify that author as Mary Ann Evans.

Q5

C

C. by contrast,

Choice C is the best answer. “By contrast” logically signals that the information in this sentence—that dogs can see, hear, and smell by the end of two weeks—contrasts with the preceding information (that wolves can smell but not see or hear at the same age).

Choice A is incorrect because “in other words” illogically signals that the information about domesticated dogs in this sentence paraphrases the information about wolves in the previous sentence. Instead, the information about dogs contrasts with what came before. Choice B is incorrect because “for instance” illogically signals that the information about domesticated dogs in this sentence exemplifies the information about wolves in the previous sentence. Instead, the information about dogs contrasts with what came before. Choice D is incorrect because “accordingly” illogically signals that the information about domesticated dogs in this sentence is in accordance with, or results from, the information about wolves in the previous sentence. Instead, the information about dogs contrasts with what came before.

Q6

A

A. In painting “Exquisite,” Acquah applied pointillism to create what she called an “illusion of movement” within the painting’s five dancing women and their twirling skirts.

Choice A is the best answer. The sentence provides Acquah’s quotation about pointillism’s “illusion of movement” to explain that she used pointillism to create the illusion of movement in her painting of women dancing.

Choice B is incorrect. The sentence explains pointillism and indicates that Acquah used the technique in her painting, but it doesn’t provide a quotation or explain why. Choice C is incorrect. While the sentence provides a quotation from Acquah about pointillism, the quotation merely describes a specific aspect of the technique; the sentence doesn’t explain why Acquah used pointillism in her painting. Choice D is incorrect. While the sentence provides a quotation from Acquah, the quotation illustrates Acquah’s views on Ghanaian women; the sentence doesn’t explain why Acquah used pointillism in her painting.

Q7

D

D. To that end,

Choice D is the best answer. "To that end" logically signals that the information in this sentence—the students' creation of a show with six starring female roles—is the product of a goal or desire in the previous sentence (the students' wish to develop a musical with roles for female actors).

Choice A is incorrect because "in other words" illogically signals that the information in this sentence is a paraphrase or restatement of the previous information about the students' wish to develop a musical with roles for female actors. Instead, the students' show is the product of that desire. Choice B is incorrect because "in summary" illogically signals that the information in this sentence summarizes the previous information about the students' wish to develop a musical with roles for female actors. Instead, the students' show is the product of that desire. Choice C is incorrect because "for example" illogically signals that the information in this sentence is merely an example of the previous information about the students' wish to develop a musical with roles for female actors. Instead, the students' show is the direct product of that desire.

Q8

A

A. While Jacobs proposes that crown shyness is caused by neighboring tree branches brushing against one another, Ng posits that it occurs when branches detect shade from nearby trees' branches.

Choice A is the best answer. The sentence compares the two proposed causes of crown shyness, noting the theories' differences: Jacobs cites branches brushing against one another as the cause, while Ng cites branches detecting shade from other branches as the cause.

Choice B is incorrect. The sentence merely identifies the existence of two theories for crown shyness; it doesn't compare the causes proposed by each theory. Choice C is incorrect. The sentence merely indicates that there are two different theories for crown shyness; it doesn't compare the causes proposed by each theory. Choice D is incorrect. The sentence merely explains one theory for crown shyness; it doesn't compare two theories.

Q9**D**

D. Specifically,

Choice D is the best answer. "Specifically" logically signals that the information in this sentence—that the researchers examined the overhead costs and attendance at events of 22,328 nonprofits—provides specific, precise details elaborating on how the researchers investigated the relationship between nonprofits' spending and performance.

Choice A is incorrect. "Thus" illogically signals that the information in this sentence is a result or consequence of the researchers' investigation of nonprofits' spending and performance. Instead, it specifies how they examined that correlation. Choice B is incorrect. "In addition" illogically signals that the information in this sentence is merely an additional fact about the researchers' investigation of nonprofits' spending and performance. Instead, it specifies how they examined that correlation. Choice C is incorrect. "By comparison" illogically signals that the information in this sentence is being compared to the researchers' investigation of nonprofits' spending and performance. Instead, it specifies how they examined that correlation.

Q10**D**

D. With a mass of 2.063 solar masses, Sirius A is more massive than the Sun.

Choice D is the best answer. The sentence emphasizes the mass of Sirius A, noting that it has a mass of 2.063 solar masses and that it is larger than the Sun.

Choice A is incorrect. The sentence makes a generalization about how the mass of stars can be measured; it doesn't emphasize the mass of Sirius A. Choice B is incorrect. The sentence introduces solar masses as a unit of measurement; it doesn't emphasize the mass of Sirius A. Choice C is incorrect. The sentence emphasizes the mass of Proxima Centauri, not the mass of Sirius A.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
