Q1**A**

A. Matthew Henson made several treks across Greenland between 1891 and 1909.

Choice A is the best answer. The convention being tested is subject-modifier placement. This choice makes the proper noun "Matthew Henson" the subject of the sentence and places it immediately after the modifying phrase "one...century." In doing so, this choice clearly establishes that Matthew Henson—and not another noun in the sentence—is being described as one of the few African American global explorers during the turn of the 20th century.

Choice B is incorrect because it results in a dangling modifier. The placement of the noun phrase "1891 and 1909" immediately after the modifying phrase illogically suggests that those years were one of the few African American global explorers during the turn of the 20th century. Choice C is incorrect because it results in a dangling modifier. The placement of the proper noun "Greenland" immediately after the modifying phrase illogically suggests that Greenland was one of the few African American global explorers during the turn of the 20th century. Choice D is incorrect because it results in a dangling modifier. The placement of the noun phrase "several treks across Greenland" immediately after the modifying phrase illogically suggests that the treks were one of the few African American global explorers during the turn of the 20th century.

Q2

C

C. served

Choice C is the best answer. The convention being tested is the use of verb forms within a sentence. Relative clauses, such as the one beginning with "how," require a finite (tensed) verb, a verb that can function as the main verb of a clause. This choice correctly supplies the clause with the finite past tense verb "served."

Choice A is incorrect because it results in an ungrammatical sentence. The nonfinite participle "serving" doesn't supply the clause with a finite verb. Choice B is incorrect because it results in an ungrammatical sentence. The nonfinite participle "having served" doesn't supply the clause with a finite verb. Choice D is incorrect because it results in an ungrammatical sentence. The nonfinite to-infinitive "to serve" doesn't supply the clause with a finite verb.

Q3

C

C. photographer's early photos

Choice C is the best answer. There's only one photographer (Adams), and the photos are his, so the singular possessive "photographer's" is correct. There's more than one photo, and nothing belongs to the photos, so the simple plural "photos" is correct.

Choice A is incorrect. This choice uses the singular possessive "photo's," which isn't correct. There's more than one photo, and they don't possess anything, so the noun should be the simple plural "photos." Choice B is incorrect. This choice uses the simple plural "photographers" and the singular possessive "photo's," which aren't correct. There's only one photographer (Adams) and there's more than one photo. Choice D is incorrect. This choice uses the simple plural "photographers," which isn't correct. There's only one photographer (Adams).

Q4

D

D. malfunctioned

Choice D is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the past tense verb "malfunctioned" is consistent with the other past tense verbs ("ignited" and "was") used to describe the destruction of the original Globe Theatre.

Choice A is incorrect because the present tense verb "malfunctions" isn't consistent with the other past tense verbs used to describe the destruction of the original Globe Theatre. Choice B is incorrect because the future tense verb "will malfunction" isn't consistent with the other past tense verbs used to describe the destruction of the original Globe Theatre. Choice C is incorrect because the present perfect tense verb "has malfunctioned" isn't consistent with the other past tense verbs used to describe the destruction of the original Globe Theatre.

Q5

A

A. enter

Choice A is the best answer. The convention being tested is finite and nonfinite verb forms within a sentence. A main clause requires a finite verb to perform the action of the subject (in this case, "embryos"), and this choice supplies the clause with the finite present tense verb "enter" to indicate how the embryos achieve diapause.

Choice B is incorrect because the nonfinite to-infinitive "to enter" doesn't supply the main clause with a finite verb. Choice C is incorrect because the nonfinite participle "having entered" doesn't supply the main clause with a finite verb. Choice D is incorrect because the nonfinite participle "entering" doesn't supply the main clause with a finite verb.

Q6

A

A. allows

Choice A is the best answer. The convention being tested is subject–verb agreement. The singular verb “allows” agrees in number with the singular subject “landing.”

Choice B is incorrect because the plural verb “are allowing” doesn’t agree in number with the singular subject “landing.” Choice C is incorrect because the plural verb “have allowed” doesn’t agree in number with the singular subject “landing.” Choice D is incorrect because the plural verb “allow” doesn’t agree in number with the singular subject “landing.”

Q7

B

B. had reached

Choice B is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the past perfect verb “had reached” is used correctly to describe a past action that was completed before another action in the past. Specifically, in this hypothetical scenario about the origins of RNA and DNA on Earth, the simple sugars had to have reached Earth before they could react with other molecules on the planet.

Choice A is incorrect because the present tense verb “reach” doesn’t indicate that the simple sugars reached Earth before reacting with other molecules on the planet. Choice C is incorrect because the future tense verb “will reach” doesn’t indicate that the simple sugars reached Earth before reacting with other molecules on the planet. Choice D is incorrect because the present progressive verb “are reaching” doesn’t indicate that the simple sugars reached Earth before reacting with other molecules on the planet.

Q8

C

C. have contributed

Choice C is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the present perfect tense verb “have contributed,” used in conjunction with the phrase “since it began in 2012,” correctly indicates that map editors have contributed in the past and continue to do so in the present.

Choice A is incorrect because the present tense verb “contribute” is inconsistent with the phrase “since it began in 2012,” which suggests that the contributions occurred in the past and continue into the present. Choice B is incorrect because the future tense verb “will contribute” is inconsistent with the phrase “since it began in 2012,” which suggests that the contributions occurred in the past and continue into the present. Choice D is incorrect because the future tense verb “will be contributing” is inconsistent with the phrase “since it began in 2012,” which suggests that the contributions occurred in the past and continue into the present.

Q9

A

A. measures

Choice A is the best answer. The previous sentence tells us how economists in India “use” a certain tool, while this sentence describes general facts about that tool. To express general facts (and also to match the simple present tense of “use”), we should use the simple present tense form “measures.”

Choice B is incorrect. This choice uses the past perfect tense, but the previous sentence tells us that the tool is currently used to measure things, so the past tense doesn’t make sense for this verb. Choice C is incorrect. This choice uses the future perfect conditional tense, but the previous sentence tells us that the tool is currently used to measure things, so the future tense doesn’t make sense for this verb. Choice D is incorrect. This choice uses the future perfect continuous tense, but the previous sentence tells us that the tool is currently used to measure things, so the future tense doesn’t make sense for this verb.

Q10

A

A. used

Choice A is the best answer. The convention being tested is the use of verb forms within a sentence. A main clause requires a finite (tensed) verb to perform the action of the subject (in this case, Land), and this choice supplies the finite past tense verb "used" to indicate what Land did with the technology he had invented.

Choice B is incorrect because it results in an ungrammatical sentence. The nonfinite perfect infinitive "to have used" doesn't supply the main clause with a finite verb. Choice C is incorrect because it results in an ungrammatical sentence. The nonfinite to-infinitive "to use" doesn't supply the main clause with a finite verb. Choice D is incorrect because it results in an ungrammatical sentence. The nonfinite participle "using" doesn't supply the main clause with a finite verb.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
