Q1**D****D. survives**

Choice D is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the present tense verb “survives” correctly indicates that the wood frog regularly survives subfreezing temperatures by producing large amounts of glucose.

Choice A is incorrect because the past perfect verb “had survived” doesn’t indicate that the wood frog regularly survives subfreezing temperatures by producing large amounts of glucose. Choice B is incorrect because the past tense verb “survived” doesn’t indicate that the wood frog regularly survives subfreezing temperatures by producing large amounts of glucose. Choice C is incorrect because the conditional verb “would survive” doesn’t indicate that the wood frog regularly survives subfreezing temperatures by producing large amounts of glucose.

Q2**D****D. it**

Choice D is the best answer. The convention being tested here is pronoun-antecedent agreement. The singular pronoun “it” agrees in number with the singular antecedent “object.”

Choice A is incorrect. The singular pronoun “this” is used to refer to a specific thing, but here there is no specific object being referred to. Instead, the sentence is referring back to a hypothetical object that Cave might use in a Soundsuit. Choice B is incorrect. The singular pronoun “that” is used to refer to a specific thing, but here there is no specific object being referred to. Instead, the sentence is referring back to a hypothetical object that Cave might use in a Soundsuit. Choice C is incorrect because the plural pronoun “these” doesn’t agree in number with the singular antecedent “object.”

Q3

C

C. Their

Choice C is the best answer. The convention being tested is the use of possessive determiners. The plural possessive determiner “their” agrees in number with the plural conjoined noun phrase “Watson and Crick” and thus indicates that the findings were those of Watson and Crick.

Choice A is incorrect because “they’re” is the contraction for “they are,” not a possessive determiner. Choice B is incorrect because “it’s” is the contraction for “it is” or “it has,” not a possessive determiner. Choice D is incorrect because the singular possessive determiner “its” doesn’t agree in number with the plural conjoined noun phrase “Watson and Crick.”

Q4

A

A. to join

Choice A is the best answer. The convention being tested is the use of nonfinite verb forms in a sentence. The nonfinite to-infinitive verb “to join” is correctly used to form a subordinate clause that expresses why Ochoa left her position (to join the training program).

Choice B is incorrect because the finite verb “is joining” can’t be used in this way to indicate Ochoa’s action of joining the training program. A conjunction such as “and” would be needed to coordinate “is joining” with the previous finite verb, “left.” Choice C is incorrect because the finite verb “joined” can’t be used in this way to indicate Ochoa’s action of joining the training program. A conjunction such as “and” would be needed to coordinate “joined” with the previous finite verb, “left.” Choice D is incorrect because the finite verb “joins” can’t be used in this way to indicate Ochoa’s action of joining the training program. A conjunction such as “and” would be needed to coordinate “joins” with the previous finite verb, “left.”

Q5**D****D. to include**

Choice D is the best answer. The convention being tested is the use of verb forms within a sentence. The nonfinite to-infinitive verb "to include" is correctly used to form a subordinate clause that indicates what the Olympic committee decided (to include tug-of-war as an Olympic event).

Choice A is incorrect because it results in an ungrammatical sentence. The finite verb "included" can't be used in this way to form a subordinate clause that indicates what the Olympic committee decided. Choice B is incorrect because it results in an ungrammatical sentence. The nonfinite participle "including" can't be used in this way to form a subordinate clause that indicates what the Olympic committee decided. Choice C is incorrect because it results in an ungrammatical sentence. The finite verb "include" can't be used in this way to form a subordinate clause that indicates what the Olympic committee decided.

Q6**B****B. create**

Choice B is the best answer. The convention being tested is the use of non-finite (untensed) verb forms in a sentence. The modal "would," which indicates the future from a perspective in the past, should be accompanied by a non-finite plain form verb. In this choice, the non-finite plain form verb "create" is used correctly in conjunction with the non-finite plain form verb "increase" to describe what the lock would do.

Choice A is incorrect because the finite present tense verb "creates" can't be used in this way with the modal "would" to describe what the lock would do. Choice C is incorrect because the present participle "creating" can't be used in this way with the modal "would" to describe what the lock would do. Choice D is incorrect because the finite past tense verb "created" can't be used in this way with the modal "would" to describe what the lock would do.

Q7

B

B. enable

Choice B is the best answer. The convention being tested is subject-verb agreement. The plural verb "enable" agrees in number with the plural subject "sound-based tools."

Choice A is incorrect because the singular verb "has enabled" doesn't agree in number with the plural subject "sound-based tools." Choice C is incorrect because the singular verb "is enabling" doesn't agree in number with the plural subject "sound-based tools." Choice D is incorrect because the singular verb "enables" doesn't agree in number with the plural subject "sound-based tools."

Q8

C

C. forcing

Choice C is the best answer. The convention being tested is the use of finite and nonfinite verb forms within a sentence. The nonfinite present participle "forcing" is correctly used to form a participial phrase that supplements the main clause "those...cover," describing the effects on monkeys of the lack of food sources.

Choice A is incorrect because the finite present tense verb "forces" can't be used in this way to supplement the main clause ("those...cover"). Choice B is incorrect. While the nonfinite to-infinitive "to force" could be used to form a subordinate clause that supplements the main clause ("those...cover"), to-infinitives conventionally express purpose, and nothing in the sentence suggests that the food sources become unavailable for the purpose of forcing monkeys to hunt marine animals. Choice D is incorrect because the finite past tense verb "forced" can't be used in this way to supplement the main clause ("those...cover").

Q9**B****B.** had doubled

Choice B is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the past perfect verb “had doubled” properly indicates that the doubling of the organization’s initial membership occurred during a specific period before the present (between the organization’s founding in 1967 and the end of the 1990s).

Choice A is incorrect because the present perfect verb “has doubled” doesn’t indicate that the organization’s doubling of its initial membership occurred during a specific period in the past. Choice C is incorrect because the present tense verb “doubles” doesn’t indicate that the organization’s doubling of its initial membership occurred during a specific period in the past. Choice D is incorrect because the future tense verb “will double” doesn’t indicate that the organization’s doubling of its initial membership occurred during a specific period in the past.

Q10**D****D.** is

Choice D is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the present tense verb "is," used in conjunction with the word "today," correctly indicates that Paik is currently considered the first video artist.

Choice A is incorrect because the future tense verb "will be" doesn’t indicate that Paik is currently considered the first video artist. Choice B is incorrect because the past perfect tense verb "had been" doesn’t indicate that Paik is currently considered the first video artist. Choice C is incorrect because the past tense verb "was" doesn’t indicate that Paik is currently considered the first video artist.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
