Q1**A****A. explains**

Choice A is the best answer. The convention being tested is the use of finite and nonfinite verb forms within a sentence. A main clause requires a finite verb to perform the action of the subject (in this case, “a recent study”), and this choice supplies the finite present tense verb “explains” to indicate that the study explains why plants that attract bats have evolved to produce moderately sweet nectar.

Choice B is incorrect because the nonfinite participle “explaining” doesn’t supply the main clause with a finite verb. Choice C is incorrect because the nonfinite participle “having explained” doesn’t supply the main clause with a finite verb. Choice D is incorrect because the nonfinite to-infinitive “to explain” doesn’t supply the main clause with a finite verb.

Q2**C****C. stories of the South Asian immigrants**

Choice C is the best answer. The convention being tested is the use of plural and possessive nouns. The plural nouns “stories” and “immigrants” correctly indicate that the memoir tells multiple stories of multiple immigrants.

Choice A is incorrect because the context requires the plural noun “stories,” not the singular possessive noun “story’s.” Choice B is incorrect because the context requires the plural nouns “stories” and “immigrants,” not the singular possessive noun “story’s” and the plural possessive noun “immigrants’.” Choice D is incorrect because the context requires the plural nouns “stories” and “immigrants,” not the plural possessive noun “stories” and the singular possessive noun “immigrant’s.”

Q3

B

B. was

Choice B is the best answer. The convention being tested is subject-verb agreement. The singular verb "was" agrees in number with the singular subject "Farouk El-Baz."

Choice A is incorrect because the plural verb "are" doesn't agree in number with the singular subject "Farouk El-Baz." Choice C is incorrect because the plural verb "have been" doesn't agree in number with the singular subject "Farouk El-Baz." Choice D is incorrect because the plural verb "were" doesn't agree in number with the singular subject "Farouk El-Baz."

Q4

B

B. vowed

Choice B is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the past tense verb "vowed" is consistent with the other past tense verbs ("guided" and "upheld") used to narrate the events surrounding President Roosevelt's decision to conserve the nation's wilderness areas.

Choice A is incorrect because the present progressive tense verb "is vowing" isn't consistent with the past tense verbs used to narrate the events surrounding President Roosevelt's decision to conserve the nation's wilderness areas. Choice C is incorrect because the future tense verb "will vow" isn't consistent with the past tense verbs used to narrate the events surrounding President Roosevelt's decision to conserve the nation's wilderness areas. Choice D is incorrect because the simple present tense verb "vows" isn't consistent with the past tense verbs used to narrate the events surrounding President Roosevelt's decision to conserve the nation's wilderness areas.

Q5

D

D. suspended

Choice D is the best answer. The past tense of "suspended" matches the past tense of "applied," which has the same subject ("he") and takes place in the same context: "He applied...and [he] suspended."

Choice A is incorrect. The perfect infinitive "to have suspended" doesn't match the past tense of "applied," and it can't serve as a verb on its own. These are both verbs with the same subject and in the same context, so there's no need to shift tenses. Choice B is incorrect. The present participle "suspending" doesn't match the past tense of "applied," and it can't serve as a verb on its own. These are both verbs with the same subject and in the same context, so there's no need to shift tenses. Choice C is incorrect. The infinitive "to suspend" doesn't match the past tense of "applied," and it can't serve as a verb on its own. These are both verbs with the same subject and in the same context, so there's no need to shift tenses.

Q6

C

C. remains

Choice C is the best answer. This choice uses the singular verb "remains" to match the singular subject "equation."

Choice A is incorrect. The singular noun "equation" doesn't match with the plural verb conjugation "have remained." Choice B is incorrect. The singular noun "equation" doesn't match with the plural verb conjugation "remain." Choice D is incorrect. The singular noun "equation" doesn't match with the plural verb conjugation "are remaining."

Q7

B

B. illuminates

Choice B is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the present tense verb "illuminates" is consistent with the other present tense verb ("is") used to describe the sculpture, correctly indicating that the sculpture habitually glows ("each night") and that the lamp inside is the source of its illumination.

Choice A is incorrect because the future progressive tense verb "will be illuminating" isn't consistent with the other present tense verb used to describe the sculpture and the source of its glow. Choice C is incorrect because the modal "would," which is used to indicate a typical behavior in the past, isn't consistent with the other present tense verb used to describe the sculpture and the source of its glow. Choice D is incorrect because the past tense verb "illuminated" isn't consistent with the other present tense verb used to describe the sculpture and the source of its glow.

Q8

C

C. to digest

Choice C is the best answer. The convention being tested is the use of nonfinite verb forms within a sentence. Working together with the finite verb "need," the nonfinite to-infinitive verb "to digest" is correctly used to form a subordinate clause that describes what the reindeer need.

Choice A is incorrect because the verb "digest" (in either its finite or nonfinite form) can't be used in this way with the finite verb "need." Choice B is incorrect because the finite verb "will digest" can't be used in this way with the finite verb "need." Choice D is incorrect because the nonfinite participle "digesting" can't be used in this way with the finite verb "need."

Q9**A**

A. musicians introduced audiences

Choice A is the best answer. The convention being tested is the use of plural nouns. The plural nouns "musicians" and "audiences" correctly indicate that there were multiple musicians introducing the music to multiple audiences.

Choice B is incorrect because the context requires the plural nouns "musicians" and "audiences," not the plural possessive nouns "musicians'" and "audiences'." Choice C is incorrect because the context requires the plural nouns "musicians" and "audiences," not the singular possessive nouns "musician's" and "audience's." Choice D is incorrect because the context requires the plural noun "musicians," not the plural possessive noun "musicians'."

Q10**C**

C. including

Choice C is the best answer. The convention being tested is the use of nonfinite verb forms within a sentence. The nonfinite present participle "including" is correctly used to form a participial phrase that supplements the main clause "he patented many inventions," listing several of Spikes's patented inventions.

Choice A is incorrect because the finite past tense verb "included" can't be used in this way to supplement the main clause "he patented many inventions." Choice B is incorrect because the finite present tense verb "includes" can't be used in this way to supplement the main clause "he patented many inventions." Choice D is incorrect because the finite future tense verb "will include" can't be used in this way to supplement the main clause "he patented many inventions."

Notes

Accept equivalent forms (e.g. 0.25 $\equiv$ 1/4). For grid-in items, decimal and fraction answers are both valid.
