Q1**A**

A. in contrast,

Choice A is the best answer. "In contrast" logically signals that the information in this sentence—that Jordan has yet to officially ratify the treaty—contrasts with the previous information about Niger having already ratified the treaty.

Choice B is incorrect because "specifically" illogically signals that the information in this sentence specifies or elaborates on the previous information about Niger ratifying the treaty. Instead, the sentence changes subjects from Niger to Jordan, presenting contrasting information about Jordan's treaty status. Choice C is incorrect because "for example" illogically signals that the information in this sentence exemplifies the previous information about Niger ratifying the treaty. Instead, the sentence explains that Jordan has yet to ratify the treaty. Choice D is incorrect because "similarly" illogically signals that the information in this sentence is similar to the previous information about Niger ratifying the treaty. Instead, the sentence presents contrasting information that Jordan has yet to ratify the treaty.

Q2

D

D. Next,

Choice D is the best answer. "Next" logically signals that the information in this sentence—which explains how Celado builds the pot's walls—is the next step in Celado's pot creation process. The sentences that follow further signal this information by completing the process.

Choice A is incorrect because "for example" illogically signals that the information about Celado building pot walls in this sentence exemplifies the information in the previous sentence about how Celado's pot creation process begins. Instead, it is the next step in this process. Choice B is incorrect because "however" illogically signals that the information in this sentence contrasts with the information in the previous sentence about how Celado's pot creation process begins. Instead, it is the next step in this process. Choice C is incorrect because "by contrast" illogically signals that the information in this sentence contrasts with the information in the previous sentence about how Celado's pot creation process begins. Instead, it is the next step in this process.

Q3

D

D. Second,

Choice D is the best answer. "Second" logically signals that the activity described in this sentence—coming up with a prediction—is the next step in the three-part sequence of steps described in the text.

Choice A is incorrect because "therefore" illogically signals that coming up with a prediction is a result or consequence of the activity described in the previous sentence: researching a question. While a prediction may be influenced by prior research, these activities are distinct steps in planning a scientific inquiry. Coming up with a prediction is the next step in the three-part sequence of steps described in the text. Choice B is incorrect because "instead" illogically signals that coming up with a prediction is an alternative to the activity described in the previous sentence: researching a question. Rather, coming up with a prediction is the next step in the three-part sequence of steps described in the text. Choice C is incorrect because "for example" illogically signals that coming up with a prediction is an example of the activity described in the previous sentence: researching a question. Instead, coming up with a prediction is the next step in the three-part sequence of steps described in the text.

Q4

B

B. For this reason,

Choice B is the best answer. The first sentence tells us that practical effects are more realistic but also more expensive than CGI. The second sentence tells us that many filmmakers use both kinds of effects, balancing realism with cost. To connect these ideas, we need a cause-and-effect transition, like “therefore.” “For this reason” has the same meaning as “therefore.” .

Choice A is incorrect. This isn’t a logical transition. The first sentence tells us that practical effects are more realistic but also more expensive than CGI. The second sentence tells us that many filmmakers use both kinds of effects, balancing realism with cost. To connect these ideas, we need a cause-and-effect transition, like “therefore.” “Similarly” doesn’t show cause and effect: it shows the addition of another agreeing idea. Choice C is incorrect. This isn’t a logical transition. The first sentence tells us that practical effects are more realistic but also more expensive than CGI. The second sentence tells us that many filmmakers use both kinds of effects, balancing realism with cost. To connect these ideas, we need a cause-and-effect transition, like “therefore.” “Furthermore” doesn’t show cause and effect: it shows the addition of another agreeing idea. Choice D is incorrect. This isn’t a logical transition. The first sentence tells us that practical effects are more realistic but also more expensive than CGI. The second sentence tells us that many filmmakers use both kinds of effects, balancing realism with cost. To connect these ideas, we need a cause-and-effect transition, like “therefore.” “In other words” doesn’t show cause and effect: it shows a restatement of the same idea in different words.

Q5

B

B. However,

Choice B is the best answer. "However" logically signals that the information in this sentence—that nothing in Copeland's career matches her accomplishment of being the first African American woman named principal dancer at the American Ballet Theatre—offers a contrast or exception to the previous information about Copeland's accomplishments.

Choice A is incorrect because "thus" illogically signals that the information that follows is a result of the previous information about Copeland's accomplishments. Instead, the statement that nothing in Copeland's career matches this accomplishment offers a contrast or exception to that information. Choice C is incorrect because "for example" illogically signals that Copeland's statement about her greatest accomplishment exemplifies the claim about her accomplishments in the previous sentence. Instead, it offers a contrast or exception to that information. Choice D is incorrect because "second of all" illogically signals that the information in this sentence is a second, separate claim from the previous sentence's information about her accomplishments. Instead, the statement that nothing in Copeland's career matches this accomplishment offers a contrast or exception to that information.

Q6

D

D. However,

Choice D is the best answer. "However" logically signals that the information in this sentence about butterfly species—that some have colorless, transparent wings—contrasts with the previous information about butterfly species with bold, colorful wings.

Choice A is incorrect because "similarly" illogically signals that the information in this sentence is similar to the previous information about butterfly species. Instead, it contrasts with the previous information. Choice B is incorrect because "previously" illogically signals that this sentence describes an event that occurred before another event. Instead, the sentence provides information about butterfly species that contrasts with the information in the first sentence. Choice C is incorrect because "in other words" illogically signals that the information in this sentence is a paraphrase or restatement of the previous information about butterfly species. Instead, it contrasts with the previous information.

Q7

C

C. Finally,

Choice C is the best answer. “Finally” logically signals that the bill passing—following many attempts between 1968 and 1983—is the final, concluding event in the sequence described in the previous sentences.

Choice A is incorrect because “instead” illogically signals that the bill passing is an alternative to one of the events described in the previous sentences. Instead, it is the final event in the sequence. Choice B is incorrect because “likewise” illogically signals that the bill passing is similar to one of the events described in the previous sentences. Instead, it is the final event in the sequence. Choice D is incorrect because “additionally” illogically signals that the bill passing is merely another event described along with the events of the previous sentences. Instead, it is the final, concluding event in the sequence.

Q8

A

A. However,

Choice A is the best answer. “However” logically signals that the information in this sentence—that envelope-shaped bags dominated the market—contrasts with the previous claim that these bags were impractical for carrying goods.

Choice B is incorrect because “for instance” illogically signals that the information in this sentence is an example supporting the previous claim that envelope-shaped bags were impractical for carrying goods. Instead, the sentence contrasts with the previous claim about the bags. Choice C is incorrect because “thus” illogically signals that the information in this sentence is a result of the previous claim that envelope-shaped bags were impractical for carrying goods. Instead, the sentence contrasts with the previous claim about the bags. Choice D is incorrect because “in other words” illogically signals that the information in this sentence is a paraphrase of the previous claim that envelope-shaped bags were impractical for carrying goods. Instead, the sentence contrasts with the previous claim about the bags.

Q9**D**

D. For instance,

Choice D is the best answer. "For instance" logically signals that the concise, witty exchange between Philip II and the Spartans is an example supporting the previous claim—that the Spartans employed wit even in the face of peril.

Choice A is incorrect because "rather" illogically signals that the exchange between Philip II and the Spartans contrasts with the previous claim about the Spartans' wit. Instead, the exchange is an example of their wit. Choice B is incorrect because "in other words" illogically signals that the exchange between Philip II and the Spartans is a restatement of the previous claim about the Spartans' wit. Instead, the exchange is an example of their wit. Choice C is incorrect because "that said" illogically signals that the exchange between Philip II and the Spartans is an exception to the previous claim about the Spartans' wit. Instead, the exchange is an example of their wit.

Q10**D**

D. Instead,

Choice D is the best answer. "Instead" logically signals that the idea in this sentence—that researchers should use the word "lyfe"—is an alternative to the idea mentioned in the previous sentence (scientists' use of the word "life").

Choice A is incorrect because "previously" illogically signals that the idea in this sentence occurs before the action in the first sentence. Instead, the use of "lyfe" is an alternative to the previously mentioned use of "life." Choice B is incorrect because "regardless" illogically signals that the idea in this sentence is true despite the information in the first sentence. Instead, the use of "lyfe" is an alternative to the previously mentioned use of "life." Choice C is incorrect because "there" illogically signals that the idea in this sentence occurs in a place mentioned in the previous sentence. Instead, the use of "lyfe" is an alternative to the previously mentioned use of "life."

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
