Q1**C****C.** Specifically,

Choice C is the best answer. The second sentence provides more specific information about the fieldwork mentioned in the first sentence—that the paleontological digs took place in Utah, Montana, and Wyoming. Therefore, “specifically” fits perfectly in this context.

Choice A is incorrect. This choice uses a disagreement transition. But this sentence doesn’t disagree with the previous sentence. Rather, this sentence agrees with and elaborates on the last sentence by providing more specifics about the fieldwork Black does. Choice B is incorrect. This choice uses a transition that indicates that an event took place after another event. But the two sentences are not describing different events—instead, this sentence gives more details about the fieldwork discussed in the first sentence. Choice D is incorrect. This choice uses a disagreement transition. But this sentence doesn’t disagree with the previous sentence. Rather, this sentence agrees with and elaborates on the last sentence by providing more specifics about the fieldwork Black does.

Q2**D****D.** For example,

Choice D is the best answer. The previous sentence tells us that potters think about the look and use of a piece when selecting clay. This sentence provides a specific example of a type of clay selected for its appearance, so the transition “for example” fits perfectly.

Choice A is incorrect. This choice uses a transition that indicates a restatement of the same idea. But this sentence does more than just restate the previous idea. Instead, it provides a more specific example of the idea presented in the first sentence. Choice B is incorrect. This choice uses a disagreement transition. But this sentence actually agrees with the previous sentence. Both sentences suggest that desired look plays a role in the selection of clay types for pottery pieces. Choice C is incorrect. This choice uses a concluding transition. But this sentence doesn’t sum up the previous sentence. Instead, it gives a specific example of the idea presented in the previous sentence.

Q3

A

A. Meanwhile,

Choice A is the best answer. “Meanwhile” logically signals that the action described in this sentence (Obinze’s move to London to pursue a career) is simultaneous with the action described in the previous sentence (Ifemelu’s move to the United States). The first sentence establishes that the actions take place around the same time, referring to the characters’ “divergent experiences” following high school.

Choice B is incorrect because “nevertheless” illogically signals that the information in this sentence about Obinze’s move to London is true despite the previous information about Ifemelu’s move to the United States. Instead, as the first sentence establishes, Obinze’s move and Ifemelu’s move are related, parallel experiences that occur around the same time. Choice C is incorrect because “secondly” illogically signals that the information in this sentence is a second point or reason separate from the previous information about Ifemelu’s move to the United States. Instead, as the first sentence establishes, Obinze’s move and Ifemelu’s move are related, parallel experiences that occur around the same time. Choice D is incorrect because “in fact” illogically signals that the information in this sentence emphasizes, modifies, or contradicts the previous information about Ifemelu’s move to the United States. Instead, as the first sentence establishes, Obinze’s move and Ifemelu’s move are related, parallel experiences that occur around the same time.

Q4

A

A. With this in mind,

Choice A is the best answer. "With this in mind" logically signals that the activity described in this sentence—Dominguez's use of techniques like decalcomania to produce unpredictable abstract patterns—is a result of his desire to include random elements in his art.

Choice B is incorrect. "On the contrary" illogically signals that the activity in this sentence opposes or is contrary to Dominguez's desire to use random elements in his art. Instead, his use of decalcomania is a result of that desire. Choice C is incorrect. "In conclusion" illogically signals that the activity in this sentence is a conclusion or summary of Dominguez's desire to use random elements in his art. Instead, his use of decalcomania is a result of that desire. Choice D is incorrect. "Regardless" illogically signals that the activity in this sentence occurs despite Dominguez's desire to use random elements in his art. Instead, his use of decalcomania is a result of that desire.

Q5

B

B. Then,

Choice B is the best answer. "Then" logically signals that the event described in this sentence—lawmakers' 2017 declaration of Alaska Highway Day—is part of a chronological sequence of events, occurring after the decades-long period in which the soldiers' contribution was overlooked.

Choice A is incorrect because "lastly" illogically signals that this sentence presents the last of a series of points or reasons. Instead, it describes a later event occurring in a chronological sequence of events. Choice C is incorrect because "similarly" illogically signals that the information in this sentence is similar to the previous information about the soldiers' contribution being overlooked for decades. Instead, it describes an event occurring after that decades-long period. Choice D is incorrect because "for example" illogically signals that this sentence provides an example illustrating the previous information about the soldiers' contribution being overlooked for decades. Instead, it describes an event occurring after that decades-long period.

Q6

D

D. Finally,

Choice D is the best answer. “Finally” logically signals that the information in this sentence—that the artisan slips paper in and out of the liquid to transfer the design onto paper—is the final step in the process of Turkish paper marbling, which began with what happens “first” (filling a tray with a solution) and continued with what happens “next” (adding inks or paints to the solution).

Choice A is incorrect because “actually” illogically signals that the information in this sentence about slipping paper in and out of liquid to transfer a design onto paper is unexpected in light of the previously described steps. Instead, the sentence describes the final step in the process of Turkish paper marbling. Choice B is incorrect because “therefore” illogically signals that the information in this sentence about slipping paper in and out of liquid to transfer a design onto paper is a consequence of the previously described steps. Instead, the sentence describes the final step in the process of Turkish paper marbling. Choice C is incorrect because “nevertheless” illogically signals that the information in this sentence about slipping paper in and out of liquid to transfer a design onto paper contrasts with the previously described steps. Instead, the sentence describes the final step in the process of Turkish paper marbling.

Q7

B

B. For example,

Choice B is the best answer. "For example" logically signals that this sentence—noting Singletary's work with Jody Naranjo—provides an example supporting the previous point about Singletary's collaborations with other artists.

Choice A is incorrect because "in conclusion" illogically signals that the information in this sentence concludes or summarizes the previous point about Singletary's collaborations with other artists. Instead, it provides an example in support of that point. Choice C is incorrect because "however" illogically signals that the information in this sentence contrasts with the previous point about Singletary's collaborations with other artists. Instead, it provides an example in support of that point. Choice D is incorrect because "in comparison" illogically signals that the information in this sentence is being compared to the previous point about Singletary's collaborations with other artists. Instead, it provides an example in support of that point.

Q8

B

B. For example,

Choice B is the best answer. "For example" logically signals that the Siletz beeswax stories mentioned in this sentence are examples consistent with the previous claim that Siletz stories support the shipwreck theory.

Choice A is incorrect because "for this reason" illogically signals that the Siletz stories about the beeswax were caused by the previous claim that Siletz stories support the shipwreck theory. Instead, the beeswax stories are examples consistent with the claim. Choice C is incorrect because "however" illogically signals that the Siletz stories about the beeswax contrast with the previous claim that Siletz stories support the shipwreck theory. Instead, the beeswax stories are examples consistent with the claim. Choice D is incorrect because "likewise" illogically signals that the Siletz stories about the beeswax are similar to the previous claim that Siletz stories support the shipwreck theory. Instead, the beeswax stories are examples consistent with the claim.

Q9**D**

D. for example,

Choice D is the best answer. “For example” logically signals that the information in this sentence—that *The Emperor’s Babe* is a novel conveyed in lines of poetry—exemplifies the claim in the previous sentence about hybrid works that incorporate elements of both novels and poems.

Choice A is incorrect because “by contrast” illogically signals that the information in this sentence contrasts with the claim about hybrid works in the previous sentence. Instead, the information demonstrates that Evaristo’s novel is an example of a hybrid work. Choice B is incorrect because “consequently” illogically signals that the information in this sentence is a consequence, or result, of the claim about hybrid works in the previous sentence. Instead, the information demonstrates that Evaristo’s novel is an example of a hybrid work. Choice C is incorrect because “secondly” illogically signals that the information in this sentence is a second, separate claim from the previous sentence’s claim about hybrid works. Instead, the information demonstrates that Evaristo’s novel is an example of a hybrid work.

Q10**D**

D. As a result,

Choice D is the best answer. “As a result” logically signals that the information in this sentence—the vessel turning black—is a result of the heating technique discussed in the previous sentence.

Choice A is incorrect because “on the contrary” illogically signals that the information in this sentence directly opposes the heating technique in the previous sentence. Instead, the vessel turns black as a result of that technique. Choice B is incorrect because “for example” illogically signals that the information in this sentence is an example of the heating technique in the previous sentence. Instead, the vessel turns black as a result of that technique. Choice C is incorrect because “previously” illogically signals that the information in this sentence occurs earlier in a chronological series of events than does the heating technique discussed in the first two sentences. Instead, the vessel turns black as a result of that technique.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
