10 answers · Rationale-rich · Teach from doc

Q1**A****A. tenets. Developed**

Choice A is the best answer. The convention being tested is punctuation use between sentences. This choice correctly uses a period to mark the boundary between one sentence ("The pedagogy...tenets") and another ("Developed...‘March in G’"). The participial phrase "developed by Japanese violinist Shinichi Suzuki" modifies the subject of the next sentence, "the method."

Choice B is incorrect because it results in a run-on sentence. The sentences ("The pedagogy...tenets" and "Developed...‘March in G’") are fused without punctuation and/or a conjunction. Choice C is incorrect because it creates a confusing and illogical sentence structure. The relative pronoun "that" followed by a comma can't be used in this way to mark the boundary between sentences. Choice D is incorrect because it results in a comma splice. A comma can't be used in this way to mark the boundary between sentences.

Q2

B

B. Lagos; *A Kind of Marriage*,

Choice B is the best answer. The convention being tested is the punctuation of items in a complex series (a series including internal punctuation). In this choice, the semicolon after “Lagos” is conventionally used to separate the first item (“*The Joys...Lagos*”) and the second item (“*A Kind...Nigeria*”) in the series. Further, the comma after “*Marriage*” correctly separates the title “*A Kind of Marriage*” from the supplementary phrase (“a television...Nigeria”) that describes it.

Choice A is incorrect because the comma after “Lagos” doesn’t match the semicolon used later in the series to separate the second item (“*A Kind...Nigeria*”) from the third item (“and...autobiography”). Choice C is incorrect because the comma after “Lagos” doesn’t match the semicolon used later in the series to separate the second item (“*A Kind...Nigeria*”) from the third item (“and...autobiography”). Additionally, a colon can’t be used in this way to separate the title “*A Kind of Marriage*” from the supplementary phrase (“a television...Nigeria”) that describes it. Choice D is incorrect because it fails to use appropriate punctuation to separate the title “*A Kind of Marriage*” from the supplementary phrase (“a television...Nigeria”) that describes it.

Q3

C

C. novel; rather,

Choice C is the best answer. The convention being tested is the coordination of main clauses within a sentence. This choice correctly uses a semicolon to join a main clause (“Saville...novel”) and a second main clause (“she’s...it”) preceded by supplementary elements (“rather...narrative”).

Choice A is incorrect because it results in a run-on sentence. The two main clauses are fused without punctuation and/or a conjunction. Choice B is incorrect because it results in a comma splice. Without a conjunction following it, a comma can’t be used in this way to join two main clauses. Choice D is incorrect because it results in a comma splice. Without a conjunction following it, the comma after “novel” can’t be used in this way to join the two main clauses.

Q4

B

B. practice at the time;

Choice B is the best answer. The convention being tested is the punctuation of elements in a complex series. It's conventional to use a semicolon to separate items in a complex series with internal punctuation, and in this choice, the semicolon after "time" is conventionally used to separate the first item ("offered...time") and the second ("celebrated...holiday") in the series of activities that librarian Pura Belpré offered. Moreover, the semicolon after "time" matches the semicolon used later to separate the second item ("celebrated...holiday") and the third ("and...folktales") in the series.

Choice A is incorrect because it fails to use appropriate punctuation to separate the first item and the second item in the complex series. Furthermore, a comma isn't needed between the noun "practice" and the prepositional phrase "at the time" because the prepositional phrase is essential to the full meaning of the phrase "an uncommon practice at the time." Choice C is incorrect because a comma after "time" doesn't match the semicolon used later to separate the second ("celebrated...holiday") and third ("and...folktales") items in the series. Furthermore, a comma isn't needed between the noun "practice" and the prepositional phrase "at the time" because the prepositional phrase is essential to the full meaning of the phrase "an uncommon practice at the time." Choice D is incorrect because a comma after "time" doesn't match the semicolon used later to separate the second ("celebrated...holiday") and third ("and...folktales") items in the series.

Q5**D**

D. silk. By

Choice D is the best answer. The independent clauses "researcher Lin Zhi...silk" and "by dissolving...2 GPa" can be grammatically separated by a period. They can stand alone as sentences, and this is the only choice that lets them do that.

Choice A is incorrect. This choice results in a grammar error called a comma splice. "Researcher Lin Zhi...silk" and "by dissolving...2 GPa" are both independent clauses. They need to either be separated with punctuation like a period or a semicolon, or they need to be connected by a comma and a coordinating conjunction like "and." A comma alone isn't enough. Choice B is incorrect. This choice results in a grammar error called a run-on sentence. "Researcher Lin Zhi...silk" and "by dissolving...2 GPa" are both independent clauses. They need to either be separated with punctuation like a period or a semicolon, or they need to be connected by a comma and a coordinating conjunction like "and." Choice C is incorrect. This choice results in a grammar error called a run-on sentence. "Researcher Lin Zhi...silk" and "by dissolving...2 GPa" are both independent clauses. The coordinating conjunction "and" isn't enough to link them by itself. We need a comma, too.

Q6**D**

D. writers, among

Choice D is the best answer. The convention being tested is punctuation use between a main clause and a supplementary phrase. This choice correctly uses a comma to mark the boundary between the main clause ("The haiku-like...writers") and the supplementary phrase ("among...Cole") that specifies a contemporary writer who has praised Tomas Tranströmer's haiku-like poems.

Choice A is incorrect because it results in a rhetorically unacceptable sentence fragment beginning with "among." Choice B is incorrect because it fails to mark the boundary between the main clause and the supplementary phrase with appropriate punctuation. Choice C is incorrect because a semicolon can't be used in this way to join the main clause ("The haiku-like...writers") and the supplementary phrase ("among...Cole").

Q7

A

A. 1950s, and

Choice A is the best answer. The convention being tested is the coordination of main clauses within a sentence. This choice correctly uses a comma and the coordinating conjunction "and" to join the first main clause ("Featuring...1950s") and the second main clause ("given...successful").

Choice B is incorrect because when coordinating two longer main clauses such as these, it's conventional to use a comma before the coordinating conjunction. Choice C is incorrect because it results in a run-on sentence. The two main clauses are fused without punctuation and/or a conjunction. Choice D is incorrect because it results in a comma splice. Without a conjunction following it, a comma can't be used in this way to join two main clauses.

Q8

D

D. essays. Praising

Choice D is the best answer. The convention being tested is punctuation use between sentences. In this choice, the period after "essays" is used correctly to mark the boundary between one sentence ("American...essays") and another ("praising...Morrison"). The participial phrase beginning with "Praising" modifies the subject of the second sentence, "writer Robert Antoni."

Choice A is incorrect because it results in a comma splice. A comma can't be used in this way to mark the boundary between sentences. Choice B is incorrect. Without a comma preceding it, the conjunction "and" can't be used in this way to join sentences. Choice C is incorrect because it results in a run-on sentence. The sentences ("American...essays" and "Praising...Morrison") are fused without punctuation and/or a conjunction.

Q9**D**

D. exclamation. Translated

Choice D is the best answer. The convention being tested is punctuation use between sentences. In this choice, the period is used correctly to mark the boundary between one sentence ("The poem...exclamation") and another sentence that begins with a supplementary element ("Translated...poem"). The supplementary element "translated as 'hark!' or 'listen!' in some versions" modifies the subject of the second sentence, "the word" (referring to hwæt).

Choice A is incorrect because it results in a comma splice after "exclamation." A comma can't be used in this way to mark the boundary between sentences. Choice B is incorrect. Without a comma preceding it, the conjunction "and" can't be used in this way to join sentences. Choice C is incorrect because it results in a comma splice after "versions." A comma can't be used in this way to mark the boundary between sentences.

Q10**D**

D. functions:

Choice D is the best answer. The convention being tested is the use of a colon within a sentence. In this choice, the colon correctly introduces the following explanation of the different functions of genomes and epigenomes.

Choice A is incorrect because it results in a run-on sentence. The two main clauses ("The relationship...functions" and "whereas...expressed") are fused without punctuation and/or a conjunction. Choice B is incorrect because it results in a comma splice. A comma can't be used in this way to join two main clauses ("The relationship...functions" and "whereas...expressed"). Choice C is incorrect. Without a comma preceding it, the conjunction "and" can't be used in this way to join two main clauses. Furthermore, "and" fails to indicate that what follows is an explanation of how cells with identical DNA develop different functions.

Notes

Accept equivalent forms (e.g. 0.25 $\equiv$ 1/4). For grid-in items, decimal and fraction answers are both valid.
