Q1**D**

D. Accordingly,

Choice D is the best answer. "Accordingly" logically signals that this sentence states a result or consequence of the previous information about the 2003 Human Genome Project. Taking into account an important lesson of the 2003 project (that a gene is affected by interactions with the protein products of other genes), research has begun to consider the human proteome instead of just the genome.

Choice A is incorrect because "in other words" illogically signals that the information in this sentence is a paraphrase or restatement of the previous information about the 2003 Human Genome Project. Instead, this sentence states a result or consequence of that information. Choice B is incorrect because "that said" illogically signals that the information in this sentence qualifies or contrasts with the previous information about the 2003 Human Genome Project. Instead, this sentence states a result or consequence of that information. Choice C is incorrect because "for example" illogically signals that this sentence provides an example supporting the previous information about the 2003 Human Genome Project. Instead, this sentence states a result or consequence of that information.

Q2

B

B. then,

Choice B is the best answer. "Then" signals that this sentence's claim about Darwin and Wallace follows logically from the previous information. In other words, both scientists independently arriving at the theory of natural selection was, arguably, an expected outcome of the circumstances mentioned in the previous sentence.

Choice A is incorrect because "however" illogically signals that the claim in this sentence contrasts with the previous information about the ideas circulating among British scientists in the 1800s. Instead, this claim follows logically from that information. Choice C is incorrect because "moreover" illogically signals that the claim in this sentence merely adds to the previous information about the ideas circulating among British scientists in the 1800s. Instead, this claim follows logically from that information. Choice D is incorrect because "for example" illogically signals that this sentence provides an example supporting the previous information about the ideas circulating among British scientists in the 1800s. Instead, it presents a claim that follows logically from that information.

Q3

A

A. indeed,

Choice A is the best answer. The second part of the sentence says that many volcanoes use shallow pockets of magma. This is an elaboration of the same underlying idea from the first part of the sentence, which says that the super deep magma of Icelandic volcanoes' makes them outliers. "Indeed" is a transition used for elaborating on the same idea, so it fits the context perfectly.

Choice B is incorrect. This choice uses a disagreement transition. But these two parts of the sentence agree with each other, so "nevertheless" doesn't make sense. Choice C is incorrect. This choice uses a transition that indicates the addition of a new idea. But the second part of the sentence isn't adding a new idea: it's elaborating on the same idea expressed in the first part of the sentence. Choice D is incorrect. This choice uses a cause-and-effect transition, which doesn't make sense here. The fact that Iceland's deep-magma volcanoes are outliers doesn't cause many other volcanoes to get fed by shallow pockets of magma.

Q4

B

B. In contrast,

Choice B is the best answer. “In contrast” logically signals that the information in this sentence—that ABA triggers accelerated growth in the mustard plant *Schrenkiella parvula*—contrasts with the previous information about ABA triggering a slowdown in most plants’ biological processes.

Choice A is incorrect because “moreover” illogically signals that the information in this sentence about the mustard plant merely adds to the previous information about the effects of ABA. Instead, it contrasts with that information. Choice C is incorrect because “for example” illogically signals that the information in this sentence about the mustard plant provides an example consistent with the previous information about the effects of ABA. Instead, it contrasts with that information. Choice D is incorrect because “thus” illogically signals that the information in this sentence about the mustard plant is a consequence, or result, of the previous information about the effects of ABA. Instead, it contrasts with that information.

Q5

C

C. More often,

Choice C is the best answer. "More often" logically signals that the claim in this sentence—that new via ferratas favor recreation over utility—explains a difference between the new "sporting activity" routes and the older "mode of travel" routes. In so doing, it emphasizes and reinforces the previous claim ("modern via ferratas are rarely designed to simply reach a summit").

Choice A is incorrect because "additionally" illogically signals that this sentence's claim about new via ferratas adds a new, separate point to the previous claim ("modern via ferratas are rarely designed to simply reach a summit"). Instead, the second claim—that new routes favor recreation over utility—emphasizes and reinforces the previous one. Choice B is incorrect because "on the other hand" illogically signals that this sentence's claim about new via ferratas contrasts with or opposes the previous claim ("modern via ferratas are rarely designed to simply reach a summit"). Instead, the second claim—that new routes favor recreation over utility—emphasizes and reinforces the previous one. Choice D is incorrect because "nonetheless" illogically signals that this sentence's claim about new via ferratas is true despite the previous claim ("modern via ferratas are rarely designed to simply reach a summit"). Instead, the second claim—that new routes favor recreation over utility—emphasizes and reinforces the previous one.

Q6

D

D. Similarly,

Choice D is the best answer. “Similarly” logically signals that the information in the sentence—that Dove situates Beulah’s life in the context of the US Civil Rights Movement—is similar to the previous information about Thomas and the Great Migration. Both sentences support the first sentence’s claim that Dove portrays her characters in the context of broader historical narratives.

Choice A is incorrect because “specifically” illogically signals that the information about Beulah in this sentence provides specific details elaborating on the previous information about Thomas. Instead, it’s similar to the previous information about Thomas. Choice B is incorrect because “thus” illogically signals that the information about Beulah in this sentence is a result or consequence of the previous information about Thomas. Instead, it’s similar to the previous information about Thomas. Choice C is incorrect because “regardless” illogically signals that the information about Beulah in this sentence is true despite the previous information about Thomas. Instead, it’s similar to the previous information about Thomas.

Q7

C

C. Ultimately,

Choice C is the best answer. The first sentence describes an experience that the viewer has when they're looking at the photos: they imagine other planets. This sentence describes an experience that the viewer has afterward: the title reminds them that the photos are of frying pans, bringing them back to reality. "Ultimately" is a transition that means "eventually" or "in the end," so it fits the context perfectly.

Choice A is incorrect. This choice uses a cause-and-effect transition, which doesn't make sense here. The viewer imagining other planets when they're looking at the photos doesn't cause the title to bring them back to reality. Choice B is incorrect. This choice uses a transition that indicates another option or possibility, which doesn't make sense here. Rather, the viewer has both experiences: first the viewer imagines that they're looking at another planet, and then the title reminds them that it's just a frying pan. Choice D is incorrect. This choice uses a transition that indicates the addition of an agreeing idea. But the viewer's experience in the second sentence is actually the opposite of the viewer's experience in the first sentence. In the first sentence, the viewer is imagining that they're seeing a landscape from another planet. In the second sentence, the viewer is reminded that they're looking at a frying pan.

Q8

C

C. What's more,

Choice C is the best answer. "What's more" logically signals that this sentence introduces an additional aspect of Wadud's poem beyond what was previously discussed. While the previous sentence establishes that Adnan's painting has inspired "the poem's exploration of temporality and identity," this sentence provides a separate, additional claim about the poem: that it reflects on poetry's relationship to other art forms.

Choice A is incorrect because "in other words" illogically signals that the information in this sentence is a paraphrase or restatement of the previous point about how Adnan's painting has inspired "the poem's exploration of temporality and identity." Instead, the sentence provides a separate, additional claim about the poem. Choice B is incorrect because "for instance" illogically signals that the information in this sentence supports the previous point about "the poem's exploration of temporality and identity" by providing an example. Instead, the sentence provides a separate, additional claim about the poem. Choice D is incorrect because "conversely" illogically signals that the information in this sentence is contrary to the previous point about how Adnan's painting has inspired "the poem's exploration of temporality and identity." Instead, the sentence provides a separate, additional claim about the poem.

Q9

A

A. To that end,

Choice A is the best answer. "To that end" logically signals that the activity described in this sentence—Nazareth titling his course "Elvis as Anthology"—is meant to further Nazareth's goal of helping others understand Presley's music as an anthology with a wide range of influences.

Choice B is incorrect. "In sum" illogically signals that the activity described in this sentence summarizes Nazareth's view of Presley's music as an anthology. Instead, titling his course "Elvis as Anthology" is a way for him to promote this view. Choice C is incorrect. "That is" illogically signals that the activity described in this sentence is a clarification or interpretation of Nazareth's view of Presley's music as an anthology. Instead, titling his course "Elvis as Anthology" is a way for him to promote this view. Choice D is incorrect. "In addition" illogically signals that the activity described in this sentence is merely an additional fact about Nazareth. Instead, titling his course "Elvis as Anthology" is a way for him to promote his view of Presley's music as an anthology.

Q10

C

C. Specifically,

Choice C is the best answer. "Specifically" logically signals that this sentence provides specific, precise details elaborating on the previous sentence's claim that de Larios's art reflects a mix of cultures. This sentence specifies which cultures the previous sentence is referring to: the artistic traditions of both Mexico and Japan.

Choice A is incorrect because "in addition" illogically signals that the information in this sentence is a separate point that follows the previous claim about de Larios's art. Instead, it provides specific details elaborating on that claim. Choice B is incorrect because "in contrast" illogically signals that the information in this sentence contrasts with the previous claim about de Larios's art. Instead, it provides specific details elaborating on that claim. Choice D is incorrect because "therefore" illogically signals that the information in this sentence is a result of the previous claim about de Larios's art. Instead, it provides specific details elaborating on that claim.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
