Q1**C**

C. researchers Roberto Scandone and Christopher Kilburn

Choice C is the best answer. The convention being tested is the punctuation of a restrictive coordinated noun phrase. No punctuation is needed within or around the coordinated noun phrase “researchers Roberto Scandone and Christopher Kilburn” because it would create an illogical separation between the noun “researchers” and the coordinated noun phrase “Roberto Scandone and Christopher Kilburn.”

Choice A is incorrect because no punctuation is needed. Placing a pair of commas around the coordinated noun phrase “Roberto Scandone and Christopher Kilburn” creates an illogical separation between the noun “researchers” and the aforementioned coordinated noun phrase. In this case, it illogically suggests that researchers in general bear the specific names Roberto Scandone and Christopher Kilburn. Choice B is incorrect because no punctuation is needed between the noun “researchers” and the coordinated noun phrase “Roberto Scandone and Christopher Kilburn.” Choice D is incorrect because no punctuation is needed within the coordinated noun phrase “Roberto Scandone and Christopher Kilburn.”

Q2**A**

A. soul,” positing

Choice A is the best answer. The convention being tested is punctuation use between a main clause and a participial phrase. This choice correctly uses a comma to mark the boundary between the main clause (“Epicurus...‘soul’”) and the participial phrase (“positing...absence”) that provides additional information about how Epicurus defined pleasure.

Choice B is incorrect because a colon can’t be used in this way to join a main clause and a participial phrase. Choice C is incorrect because a semicolon can’t be used in this way to join a main clause and a participial phrase. Choice D is incorrect because it results in a rhetorically unacceptable sentence fragment beginning with “positing.”

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
