Q1**C****C. was**

Choice C is the best answer. The convention being tested is subject-verb agreement. The singular verb "was" agrees in number with the singular subject "every last second."

Choice A is incorrect because the plural verb "have been" doesn't agree in number with the singular subject "every last second." Choice B is incorrect because the plural verb "are" doesn't agree in number with the singular subject "every last second." Choice D is incorrect because the plural verb "were" doesn't agree in number with the singular subject "every last second."

Q2**A****A. their**

Choice A is the best answer. The convention being tested is the use of possessive determiners. The plural possessive determiner "their" agrees in number with the plural noun "the poems," thus indicating that the poems had eight panels of text stitched together in the shape of a traditional eight-pointed Lakota star quilt.

Choice B is incorrect because "it's" is the contraction for "it is" or "it has," not a possessive determiner. Choice C is incorrect because "they're" is the contraction for "they are," not a possessive determiner. Choice D is incorrect because the singular possessive determiner "its" doesn't agree in number with the plural noun "the poems."

Q3

D

D. was studying

Choice D is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the past progressive tense verb “was studying” is consistent with the other past tense verbs (e.g., “made” and “collected”) used to describe Buratti’s discovery. Further, the past progressive tense correctly indicates that an ongoing action in the past was occurring (she was studying) at the same time that another event occurred in the past (she made an interesting discovery).

Choice A is incorrect because the present tense verb “studies” isn’t consistent with the past tense verbs used to describe Buratti’s discovery. Choice B is incorrect because the present perfect progressive tense verb “has been studying” isn’t consistent with the past tense verbs used to describe Buratti’s discovery. Choice C is incorrect because the future tense verb “will study” isn’t consistent with the past tense verbs used to describe Buratti’s discovery.

Q4

A

A. suggested

Choice A is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the simple past tense verb “suggested” properly indicates that Zufall offered her suggestion for the product’s name in the past. This verb tense is consistent with the previous sentence’s use of a simple past tense verb (“advised”) to describe Zufall’s advice to McVicker in the 1950s.

Choice B is incorrect because the present tense verb “suggests” doesn’t indicate that Zufall offered her suggestion in the past. Choice C is incorrect because the past perfect verb “had suggested” isn’t consistent with the previous sentence’s use of the simple past tense verb “advised” to describe Zufall’s advice to McVicker. Choice D is incorrect because the past progressive verb “was suggesting” isn’t consistent with the previous sentence’s use of the simple past tense verb “advised” to describe Zufall’s advice to McVicker.

Q5

A

A. studies

Choice A is the best answer. The convention being tested is subject-verb agreement. The singular verb "studies" agrees in number with the singular subject "anthropologist Lívia Barbosa."

Choice B is incorrect because the plural verb "are studying" doesn't agree in number with the singular subject "anthropologist Lívia Barbosa." Choice C is incorrect because the plural verb "have studied" doesn't agree in number with the singular subject "anthropologist Lívia Barbosa." Choice D is incorrect because the plural verb "study" doesn't agree in number with the singular subject "anthropologist Lívia Barbosa."

Q6

A

A. terms presidents

Choice A is the best answer. The convention being tested is the use of plural nouns. The plural nouns "terms" and "presidents" correctly indicate that the amendment involves multiple terms and applies to presidents in general.

Choice B is incorrect because the context requires the plural noun "terms," not the singular possessive noun "term's." Choice C is incorrect because the context requires the plural nouns "terms" and "presidents," not the singular possessive nouns "term's" and "president's." Choice D is incorrect because the context requires the plural noun "presidents," not the singular possessive noun "president's."

Q7

B

B. are

Choice B is the best answer. The convention being tested is subject-verb agreement. The plural verb "are" agrees in number with the plural compound subject "the trefoil knot and the figure-eight knot." The two types of knots joined by "and" function as a plural subject and thus require a plural verb.

Choice A is incorrect because the singular verb "was" doesn't agree in number with the plural compound subject "the trefoil knot and the figure-eight knot." Choice C is incorrect because the singular verb "has been" doesn't agree in number with the plural compound subject "the trefoil knot and the figure-eight knot." Choice D is incorrect because the singular verb "is" doesn't agree in number with the plural compound subject "the trefoil knot and the figure-eight knot."

Q8

D

D. phrase's simplicity masks its

Choice D is the best answer. The conventions being tested are the use of possessive nouns and the use of possessive determiners. The singular possessive noun "phrase's" correctly indicates that there is only one simple phrase. The singular possessive determiner "its" agrees in number with the singular possessive noun "phrase's," reinforcing the idea that there is only one simple yet complex phrase.

Choice A is incorrect because the context requires the singular possessive noun "phrase's," not the plural possessive noun "phrases'." Choice B is incorrect because the context requires the singular possessive noun "phrase's" and the corresponding singular possessive determiner "its," not the plural noun "phrases" and the corresponding plural possessive determiner "their." Choice C is incorrect because the context requires the singular possessive determiner "its," not the plural possessive determiner "their."

Q9**B****B. they were**

Choice B is the best answer. The convention being tested is pronoun–antecedent agreement. The plural pronoun “they” agrees in number with the plural antecedent “woodcuts” and clearly identifies what was exhibited at the Smithsonian American Art Museum.

Choice A is incorrect because the singular pronoun “it” doesn’t agree in number with the plural antecedent “woodcuts.” Choice C is incorrect because the singular pronoun “this” doesn’t agree in number with the plural antecedent “woodcuts.” Choice D is incorrect because the plural pronoun “some” is illogical in this context (referring to “some” of two woodcuts).

Q10**A****A. they accumulate**

Choice A is the best answer. The noun that goes with “expand and contract” is “rivers,” a plural noun. “They” is a third-person plural pronoun, so it can correctly stand in for “rivers.”

Choice B is incorrect. This choice creates a pronoun-antecedent agreement error. “One” is a singular pronoun, but the noun that goes with “expand and contract” is “rivers,” a plural noun. Choice C is incorrect. This choice creates a pronoun-antecedent agreement error. “It” is a singular pronoun, but the noun that goes with “expand and contract” is “rivers,” a plural noun. Choice D is incorrect. This choice creates a pronoun-antecedent agreement error. The noun that goes with “expand and contract” is the plural noun “rivers.” Rivers are not people, so “we” can’t be used to stand in for it.

Notes

Accept equivalent forms (e.g. $0.25 \equiv 1/4$). For grid-in items, decimal and fraction answers are both valid.
