CRAFT AND STRUCTURE

The following text is from H.D.'s 1916 poem "Mid-Day." In the poem, the speaker is on a path in an outdoor setting.

A slight wind shakes the seed-pods—

my thoughts are spent

as the black seeds.

My thoughts tear me,

I dread their fever.

I am scattered in its whirl.

I am scattered like

the hot shrivelled seeds.

Which choice best describes the function of the underlined portion in the text as a whole?

- A. It illustrates a change in the natural environment that the speaker implies is responsible for the growing misgivings described in the text.
- B. It establishes an example of consistency in the natural landscape that the speaker then contrasts with the unpredictability of human emotions.
- C. It presents an observation of an occurrence in the natural world that the speaker then expands on to convey a sense of a turbulent interior state.
- D. It evokes the ordinariness of an event in nature to suggest that the critical self-evaluation the speaker engages in is a common pursuit.

Today composer Scott Joplin is mainly celebrated for his catchy ragtime pieces “Maple Leaf Rag” and “The Entertainer.” However, by overlooking his less famous works, listeners will miss the full range of Joplin’s creativity. For instance, his waltz “Pleasant Moments” and his opera *Treemonisha* skillfully blend ragtime and classical music. These masterpieces deserve as much fame as Joplin’s biggest hits.

Which choice best states the main purpose of the text?

- A. To describe the similarities and differences between ragtime music and opera
- B. To argue that more attention should be given to Joplin’s lesser-known works
- C. To encourage music lovers to listen to music by many different composers
- D. To explain how Joplin learned to compose and perform ragtime music

The following text is from Walt Whitman's 1860 poem "Calamus 24."

I HEAR it is charged against me that I seek to destroy institutions;
But really I am neither for nor against institutions
(What indeed have I in common with them?—Or what with the destruction of
them?),
Only I will establish in the Mannahatta [Manhattan] and in every city of These
States, inland and seaboard,
And in the fields and woods, and above every keel [ship] little or large, that dents
the water,
Without edifices, or rules, or trustees, or any argument,
The institution of the dear love of comrades.

Which choice best describes the overall structure of the text?

- A. The speaker questions an increasingly prevalent attitude, then summarizes his worldview.
- B. The speaker regrets his isolation from others, then predicts a profound change in society.
- C. The speaker concedes his personal shortcomings, then boasts of his many achievements.
- D. The speaker addresses a criticism leveled against him, then announces a grand ambition of his.

Why do sand cats purr but lions roar? Researchers hypothesize that this difference between the two feline species may be partly due to a U-shaped bone in their throats called the hyoid. Sand cats, which are much smaller than lions, have a rigid hyoid that rumbles when the cat's larynx vibrates, resulting in a purr. By contrast, lions have a somewhat flexible hyoid, and the bone is attached to the skull with a stretchy ligament that sand cats lack. These traits allow lions and most other species of big cats to produce powerful roars. The same traits may also prevent most big cats from purring.

Which choice best describes the overall structure of the text?

- A. The text presents a theory about two species, then discusses facts that weaken it.
- B. The text compares the habitats of two species, then explains how those habitats are changing.
- C. The text describes a behavior shared by two species, then discusses other behaviors shared by them.
- D. The text poses a question about two species, then presents a possible answer.

The following text is from Lucy Maud Montgomery's 1908 novel *Anne of Green Gables*. Anne, an eleven-year-old girl, has come to live on a farm with a woman named Marilla in Nova Scotia, Canada.

Anne reveled in the world of color about her.

"Oh, Marilla," she exclaimed one Saturday morning, coming dancing in with her arms full of gorgeous boughs, "I'm so glad I live in a world where there are Octobers. It would be terrible if we just skipped from September to November, wouldn't it? Look at these maple branches. Don't they give you a thrill—several thrills? I'm going to decorate my room with them."

"Messy things," said Marilla, whose aesthetic sense was not noticeably developed. "You clutter up your room entirely too much with out-of-doors stuff, Anne. Bedrooms were made to sleep in."

Which choice best states the main purpose of the text?

- A. To demonstrate that Anne has a newly developed appreciation of nature
- B. To describe an argument that Anne and Marilla often have
- C. To emphasize Marilla's disapproval of how Anne has decorated her room
- D. To show that Anne and Marilla have very different personalities

The following text is from Paul Laurence Dunbar’s 1913 poem “The Poet and His Song.”

A song is but a little thing,
And yet what joy it is to sing!
In hours of toil it gives me zest,
And when at eve I long for rest;
When cows come home along the bars,
And in the fold I hear the bell,
As Night, the shepherd, herds his stars,
I sing my song, and all is well.

Which choice best states the main purpose of the text?

- A. To convey how engaging in song makes the speaker feel
- B. To compare the speaker to a singing shepherd
- C. To portray the speaker’s excitement about farming
- D. To describe the pieces of music the speaker enjoys hearing

Archeological excavation of Market Street Chinatown, a nineteenth-century Chinese American community in San Jose, California, provided the first evidence that Asian food products were imported to the United States in the 1800s: bones from a freshwater fish species native to Southeast Asia. Jinshanzhuang—Hong Kong—based import/export firms—likely coordinated the fish’s transport from Chinese-operated fisheries in Vietnam and Malaysia to North American markets. This route reveals the (often overlooked) multinational dimensions of the trade networks linking Chinese diaspora communities.

Which choice best describes the function of the underlined sentence in the text as a whole?

- A. It explains why efforts to determine the country of origin of the items mentioned in the previous sentence remain inconclusive.
- B. It provides information that helps support a claim about a discovery’s significance that is presented in the following sentence.
- C. It traces the steps that were taken to locate and recover the objects that are described in the previous sentence.
- D. It outlines a hypothesis that additional evidence discussed in the following sentence casts some doubt on.

Using NASA's powerful James Webb Space Telescope (JWST), Mercedes López-Morales and colleagues measured the wavelengths of light traveling through the atmosphere of WASP-39b, an exoplanet, or planet outside our solar system. Different molecules absorb different wavelengths of light, and the wavelength measurements showed the presence of carbon dioxide (CO₂) in WASP-39b's atmosphere. This finding not only offers the first decisive evidence of CO₂ in the atmosphere of an exoplanet but also illustrates the potential for future scientific breakthroughs held by the JWST.

Which choice best describes the overall structure of the text?

- A. It discusses a method used by some researchers, then states why an alternative method is superior to it.
- B. It describes how researchers made a scientific discovery, then explains the importance of that discovery.
- C. It outlines the steps taken in a scientific study, then presents a hypothesis based on that study.
- D. It examines how a group of scientists reached a conclusion, then shows how other scientists have challenged that conclusion.

A study by Dr. Paul Hanel and colleagues concluded that people are more likely to behave politely when listening to ideas they disagree with if they think about values before they engage in a discussion. Study participants were assigned to one of two groups. The experimental group spent a few minutes writing about one of their personal values before they had a group discussion on a controversial topic. And the control group spent a few minutes writing about a drink (tea, milk, etc.) before their group discussion on that topic. Hanel and colleagues found that the experimental group's discussion was more civil than the control group's discussion was.

Which choice best describes the main purpose of the text?

- A. To describe a widely held belief and how a study's results support that belief
- B. To argue that researchers were surprised by the results of a certain study
- C. To suggest ways to improve a certain study's experimental design
- D. To explain a study's conclusion and how a research team arrived at that conclusion

The following text is adapted from Paul Laurence Dunbar's 1902 novel *The Sport of the Gods*. Joe and some of his family members have recently moved to New York City.

[Joe] was wild with enthusiasm and with a desire to be a part of all that the metropolis meant. In the evening he saw the young fellows passing by dressed in their spruce clothes, and he wondered with a sort of envy where they could be going. Back home there had been no place much worth going to, except church and one or two people's houses.

Which choice best states the main purpose of the text?

- A. It illustrates a character's reaction to a new environment.
- B. It explains why a character has traveled to a city.
- C. It compares a character's thoughts about an event at two different times of day.
- D. It presents a character feeling regret over leaving home.
